# Message from Space Florida Chair of the Board

Florida continues to set the pace in the aerospace industry, and the last year was no exception. It is my privilege to reflect on the accomplishments of Space Florida and the remarkable growth we have achieved together. Florida's unique combination of infrastructure, workforce, and innovation-driven partnerships continues to position our state as the premier destination for aerospace companies from around the world.

2024 ended on a historic note in Florida, with a record 93 launches from the Cape Canaveral Spaceport—a clear testament to our robust space ecosystem and the growing global confidence in Florida as the center of aerospace activity. These milestones highlight not only the success of commercial spaceflight but also the broader vibrancy and capability of Florida's aerospace industry.

Over the past year, Space Florida has strengthened our role as the state's aerospace finance and development authority, fostering partnerships that expand opportunities, drive innovation, and support economic growth. Through strategic investments, innovative programs, and global collaborations, we have enabled companies—from emerging startups to established leaders—to thrive in Florida. Initiatives such as the Space Florida-Israel Innovation Partnership, our MOUs with international partners, and support for leading companies like Leonardo, BAE, and Amazon illustrate how we are shaping the future of aerospace across both advanced aviation and spaceflight.

The last year also marked continued growth across Florida's spaceport network, where we are investing in infrastructure, operational capabilities, and cutting-edge technologies that strengthen the state's competitiveness. These efforts are not only driving economic activity—they are ensuring Florida remains at the forefront of aerospace innovation for decades to come.

As we look ahead to the next year, Space Florida remains committed to enabling global partnerships, supporting industry growth, and positioning Florida as the undisputed leader in aerospace. Our successes are the result of collaboration: with federal and state partners, local communities, universities, and the companies who choose to call Florida home.

On behalf of the Space Florida Board of Directors, I extend my sincere thanks to all our partners, stakeholders, and employees who contribute to this shared mission. Together, we are building a stronger aerospace industry and a brighter future for Florida.

Sincerely,

Jeanette Nuñez  
Chair, Space Florida Board of Directors

# Message from the President & Chief Executive Officer

As we close another fiscal year, I am proud to share that Space Florida has continued to drive innovation, growth, and global leadership across the aerospace industry. Florida's aerospace ecosystem is thriving. While the record number of launches this past year certainly underscores the state's unmatched capacity to support an unprecedented pace of commercial and government activity, this metric tells a deeper story that will help make Florida the undisputed leader for the next phase of commerce.

Our vision at Space Florida is to make our state the leading global and interplanetary center for aerospace commerce. Over the past year, we have advanced this vision in measurable ways, helping companies expand operations across the entire state, from advanced aviation and maintenance, repair, and overhaul facilities to commercial space enterprises that are reshaping the global landscape.

Another record-breaking year for launches highlights the strategic progress across our Spaceport System and infrastructure assets. From enhancements at Space Florida's Launch and Landing Facility to major milestones at Cecil Spaceport—including the new utility corridor and support for a federal reentry license—we continue to invest in world-class infrastructure that strengthens competitiveness, attracts global innovators, and creates economic value for our communities. These efforts position Florida as a cornerstone of an enduring and investable space market.

At the same time, we recognize that Florida's leadership in aerospace demands foresight. As the global space economy accelerates, so does risk. Space Florida is working to de-risk growth through strategic policy pursuits that create the right frameworks before challenges arise. Whether through newly passed tax-exemption status for spaceport bonds federally or supporting legal and regulatory clarity, we are creating the standard while helping ensure long-term industry stability and confidence to invest in it.

Florida's aerospace industry remains a critical driver of economic growth, workforce development, and technological leadership. Space Florida continues to provide the unmatched financial tools, infrastructure, and strategic guidance that allow companies to thrive in a competitive and rapidly evolving global market.

Beyond business development and policy, we are investing in the future of innovation. Initiatives like the creation of the International Aerospace Investment Fund, the Florida University Space Research Consortium, and our education and outreach programs are strengthening Florida's leadership on the global stage while preparing the next generation of talent that will sustain it.

Looking ahead, we remain focused on ensuring the long-term growth, stability, and leadership of Florida's aerospace industry. Our 2035 goals provide a roadmap to build an ecosystem that is not only strong today but capable of withstanding the rising challenges of this critical industry. On behalf of the entire Space Florida team, I want to thank our partners, stakeholders, and employees for their dedication and shared vision.

Together, we are shaping a future defined by innovation, stability, and global competitiveness, and securing Florida's place as the world's premier destination for aerospace commerce.

Sincerely,

Rob Long  
President & Chief Executive Officer  
Space Florida

# FY2025: BY THE NUMBERS

15

strategies in the Florida Strategic Plan for Economic Development being implemented by Space Florida

\$109M

in funding for research projects, partnerships, and grants supported by Space Florida

8,867

jobs created, recruited, and retained by Space Florida

15

companies recruited, retained, and expanded by Space Florida

30

research projects, partnerships, and grants supported by Space Florida

100

2025 record breaking launches ... and counting

# Unlocking Florida's Spaceport Potential

Nowhere better illustrates Florida's aerospace boom than the Cape Canaveral Spaceport. The surge in commercial activity has highlighted the future demands needed to meet the expected industry growth and launch cadence from Starship, New Glenn, Vulcan and other next-generation systems. To address the needs of industry and ensure continued growth, Space Florida identifies six key infrastructure areas for investment—coined as the “Big 6”: wastewater, wetlands, roads and bridges, power, natural gas, and wharf facilities. Enhancement and expansion of these systems are essential to meet the capacity requirements for both commercial and defense missions. Meeting these needs requires collaboration among federal, state, and industry stakeholders, with all parties contributing to sustainable, modern solutions.

This year, Space Florida continued its mission to help bridge this gap. With unique statutory authority and a proven ability to leverage recurring revenue for strategic investments, Space Florida brings creativity and financial expertise to ensure the spaceport remains a resilient, high-capacity hub. By combining state and private resources with federal efforts, Space Florida helps unlock financing for projects that strengthen the complex's infrastructure, support growth, and advance U.S. leadership in space.

## THE “BIG 6”

WASTEWATER

WETLANDS

WHARF  
FACILITIES

BRIDGES

POWER

NATURAL  
GAS

Looking ahead, Space Florida is focused on preparing the spaceport system for long-term demand. By 2035, we estimate Florida will need to support the annual transport of at least 5,000 metric tons to space—equivalent to 219 Falcon 9 launches, 40 Starship launches, 111 New Glenn launches, or 194 Vulcan launches.

Achieving this goal requires a holistic approach to the Big 6 today, modernizing facilities, and implementing innovative, revenue-generating funding and governance models that ensure a high-performing spaceport for decades to come.

Through strategic investment and forward-looking planning, Space Florida is building the foundation for Florida's continued leadership in aerospace, ensuring the state's spaceport system is ready to meet the demands of the next generation of space commerce and exploration.

## BY 2035...

Florida will need to support the annual transport of 5,000 metric tons to space - the equivalent to:

**219** Falcon 9 Launches

**40** Starship Launches

**111** New Glenn Launches

**194** Vulcan Launches

# Spaceport Development Projects

Since 2012, Space Florida and the Florida Department of Transportation (FDOT) have partnered to drive the development of Florida's space transportation infrastructure. Through the FDOT Spaceport Improvement Program, the state has invested a half a billion dollars in space transportation projects, making significant strides in expanding the capabilities of Florida's Spaceport System. In lock step with FDOT, Space Florida invests in vital space transportation projects that enhance Florida's competitiveness as a global aerospace hub.

## **Cape Canaveral Spaceport (CCS) Power Improvements Phase 2: Saturn Substation & Distribution**

The \$14.5 million project, led by Space Florida in partnership with Florida Power & Light (FPL), is delivering critical new power capacity to the Launch and Landing Facility (LLF) and other commercial development areas of Kennedy Space Center. Designed to meet the demands of future development, the project also provides redundant back-feed power to enhance resiliency across the spaceport.

This project is now complete, with the Saturn Substation energized and fully operational. Distribution line construction is also complete, with the Amazon Leo (formerly Project Kuiper) satellite processing facility being the first customer to connect to the new power source. Together, these improvements are strengthening the reliability of Florida's spaceport infrastructure while enabling growth across new development areas. This is the third substation that Space Florida has partnered with FPL on to address commercial power needs. Space Florida will continue to work with FPL and spaceport partners to ensure future spaceport power needs are met as well.

## **Cecil Spaceport Utility Corridor**

The Cecil Spaceport Utility Corridor Project, a \$3 million investment in partnership with the Jacksonville Aviation Authority (JAA), has successfully advanced the infrastructure needed to support long-term aerospace development at Cecil Spaceport in Jacksonville. Completed in June 2025, the project delivers essential utility connections—including water, sanitary sewer, electric, and fiber—linking the existing utility terminus to the Spaceport Operations Area.

The work concluded with full completion of construction, final inspections, and acceptance by Jacksonville Electric Authority. With all punch list items resolved and utilities energized, the corridor is now fully operational. By providing these critical services, the new corridor ensures that future aerospace operations at Cecil Spaceport can be supported by modern, reliable infrastructure. The project also enhances operational readiness and positions the spaceport for continued growth as a hub for horizontal launch, testing, and related aerospace activities.

## **Lunar Production Facility**

The Blue Origin 'Lunar Plant 1' production facility at Cape Canaveral Spaceport includes a \$9.25 million investment by Space Florida through the Spaceport Improvement Program designed to support Blue Origin's work under NASA's Sustained Lunar Development program. This new facility will handle the assembly and integration of lunar space vehicles and encapsulate them into the composite payload fairings of Blue Origin's New Glenn launch vehicle—positioning Florida at the center of future heavy-lift operations and lunar exploration. Construction was completed in September 2025.

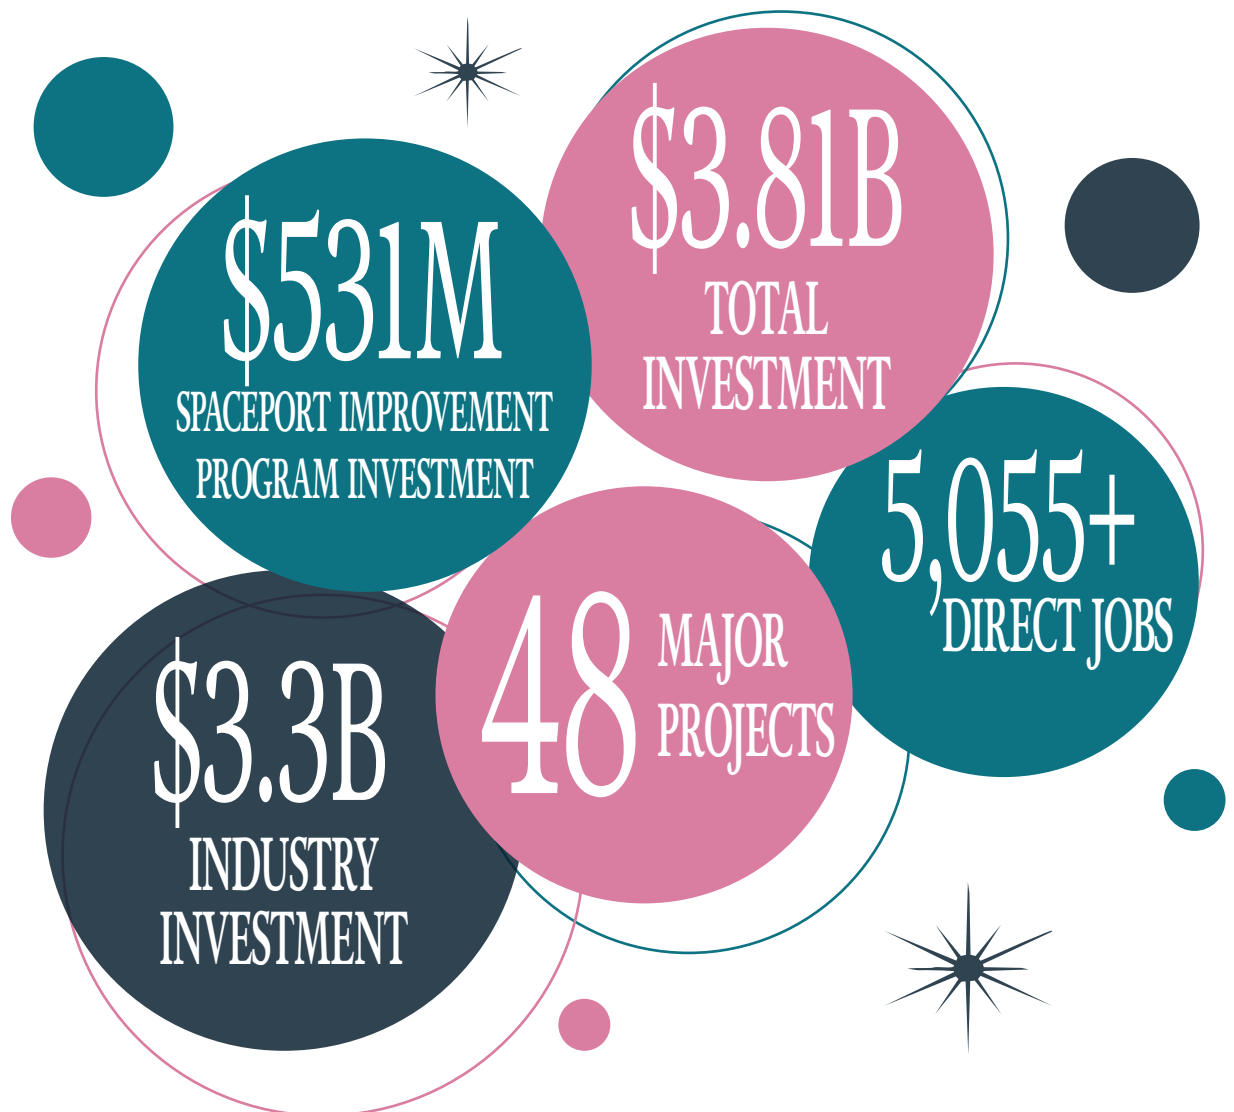

# Spaceport Development Projects

## Spaceport Commodities Pipelines Extension

This \$13 million infrastructure project led in partnership with United Launch Alliance (ULA), extends existing pipelines carrying gaseous nitrogen and helium to meet growing demand across the spaceport. It will serve multiple users including spacecraft processing operations, payload integration, and horizontal launch facilities, while also supporting future developments at Cape Canaveral Space Force Station.

As of June 30, 2025, the project is nearly 69% through its timeline, with early progress focused on trenching and pipe installation. Contractors have completed about 2.6 of 2.8 miles of pipeline installation along Patrol Road and Titan III Road, with pipe testing and backfilling underway. Work also continues on three required metering stations, and directional drilling began in 2024.

## FDOT SPACEPORT IMPROVEMENT PROGRAM (SIP): BY THE NUMBERS

# SPACE FLORIDA'S LAUNCH AND LANDING FACILITY

Once primarily used for government operations, Space Florida's Launch and Landing Facility (LLF) has evolved into a hub for aerospace innovation, research, manufacturing, and testing. Under a 30-year agreement with NASA, Space Florida manages this facility, which is open to commercial customers.

## BY THE NUMBERS: FY25 AT THE LLF

**363** **LANDING &  
DEPARTURES**

**3,238** **TOTAL FLIGHT OPERATIONS**  
This included support for commercial and government missions: NASA's Crew 10 and 11, FLANG troop movement, New Glenn Launch Support, and JSC's SPLICE Program, a descent and landing system for lunar landings.

**207** **GROUND TESTS**  
Partnered with NASA, SpaceX, U.S. Air Force, Tesla, Volvo, Space Coast Testing, and Indy Autonomous Challenge.

### THE LLF WELCOMED THE FOLLOWING SPACECRAFT:

G-SAT 20, Commercial GTO, Bandwagon – 3, PSN N-5 (Nusantara 5), Spain Sat NG-1, Galileo, NG-23, Airbus ACES and VIASAT

# Capital and Business Development: Statewide Reach, Global Implications

As of June 30, 2025, our business development project pipeline held over 200 projects at various stages, collectively representing an estimated \$5 billion in capital investment (non-spaceport projects)—double since 2021. This growth signals our ability to attract larger, more complex projects that drive economic impact and technological progress across the state. Projects spanned 33 counties—eight of which are within “Rural Areas of Opportunity.” Notably, over 40 of these projects have yet to select a specific location, demonstrating a strong early intent from companies to establish roots in Florida, driven by Space Florida’s proactive and strategic support and the state’s business-friendly climate. This location diversity underscores Space Florida’s dedication to expanding aerospace development statewide, ensuring that growth is not limited, thereby creating economic opportunities across Florida.

Every project within the pipeline undergoes rigorous due diligence and eligibility verification prior to accessing Space Florida’s comprehensive toolkit, reinforcing our commitment to high standards and strategic alignment. Space Florida actively seeks out regions across the state that have not traditionally hosted major aerospace projects, engaging areas where companies are integral to the aerospace supply chain, either as manufacturers of critical components or as service providers.

**200+** PROJECTS IN  
VARIOUS STAGES  
**\$5 BILLION**  
IN CAPITAL INVESTMENTS  
**33** COUNTIES WITH  
PROJECTS, 8 ARE  
WITHIN “RURAL AREAS  
OF OPPORTUNITY”

BAE Systems Jacksonville Shiplift

# NASA Florida Space Grant Consortium & Florida Space Research Program

The Florida Space Research Program (FSRP) aims to support the expansion and diversification of Florida's Statewide Universities' participation in aerospace industry research and technology development by addressing workforce development, including student research experience. The FSRP also increases statewide academic involvement in space research, technology development, engineering, education, and training programs consistent with the state's space industry priorities.

The program comprises four categories – Science Mission Directorate, Human Exploration and Operations, Space Technology, and Aeronautics. The State of Florida and Space Florida have significantly contributed to the Florida Space Research Program for five years. Space Florida's annual contribution to the FSRP is \$100,000, while the NASA Florida Space Grant Consortium contributes \$200,000, thus making a total of \$300,000 available for Florida research entities.

## FSRP PROGRAM CATEGORIES

Space  
Technology

Human  
Exploration

Science  
Mission  
Directorate

Aeronautics

The Florida Space Grant Consortium (FSGC) proposes an ambitious scope of activities over the next four years, which is focused on generating meaningful and relevant student contributions to NASA's mission and work, driven by requirements from NASA's Mission Directorates. It will accomplish these activities by collaborating with its 23 affiliate members comprised of 20 universities and colleges and three affiliates involved in K-20 education. FSGC is administered through the University of Central Florida and the Florida Space Institute, and its main offices are located at the Research Park in Orlando, just outside the University of Central Florida campus.

## BY THE NUMBERS: in the next four years...

**\$300K** annual Florida  
research funds

**4** mission categories supported

**23** affiliate universities

**20** universities + colleges involved

## PARTICIPATING SCHOOLS:

Bethune-Cookman University  
Broward college  
Eastern Florida State College  
Eckerd College  
Embry Riddle Aeronautical University  
Florida A & M University  
Florida Atlantic University  
Florida Gulf Coast University  
Florida Institute of Technology  
Florida International University

Florida Polytechnic University  
Florida State University  
Miami Dade College  
St. Petersburg College  
University of Central Florida  
University of Florida  
University of Miami  
University of North Florida  
University of South Florida  
University of West Florida

# Strengthening Global Ties: Space Florida Signs MOU with Japan's Cross U

During the 2025 Space Symposium in Colorado Springs, Space Florida signed a Memorandum of Understanding (MOU) with Cross U, a leading Japan-based platform for technology transfer and international business expansion. The agreement marked a pivotal step in expanding Florida's global reach and reinforcing its status as the home base for aerospace innovation.

The signing formalized a strategic partnership aimed at fostering bilateral innovation, investment, and market expansion across the aerospace sector. As the state's aerospace finance and development authority, Space Florida continues to lead international engagement efforts, cultivating global relationships that bring new technologies and businesses into Florida's thriving space economy.

Under the MOU, Space Florida and Cross U will collaborate on initiatives that facilitate the sharing of advanced aerospace technologies and connect Japanese innovators with Florida's rapidly growing aerospace infrastructure. The agreement also opens the door to joint research efforts, investment opportunities, and knowledge exchange programs between the two regions.

This partnership is a direct result of ongoing international outreach, helping build a strong foundation for international collaboration and enabling Florida to attract high-impact partners seeking access to a pro-business environment, world-class spaceport assets, and a deep bench of aerospace talent.

As the global space market continues to expand—projected to reach \$1.8 trillion by 2035—Space Florida remains focused on positioning the state at the forefront of that growth. Partnerships like the one with Cross U play a vital role in ensuring that Florida remains a magnet for international aerospace investment, while continuing to shape the future of the industry from the Sunshine State.

This MOU not only bridges markets, but it also reinforces Florida's role as a launch point for global collaboration, making it the destination of choice for companies looking to scale, innovate, and lead in the evolving space economy.

# Forging a Transatlantic Aerospace Corridor: Space Florida Partners with Swiss Innovation Leaders

Building on its growing portfolio of global alliances, Space Florida took a bold step forward by formalizing a multi-organization partnership with the Center for Space and Aviation Switzerland and Liechtenstein (CSA) and Switzerland Innovation Park Zurich (IPZ) at the 2025 Paris Air Show. The agreement establishes a dedicated corridor between Florida and Switzerland that will drive trade, technology, and talent across the global space economy.

This Memorandum of Understanding (MOU) sets the stage for a robust international bridge connecting Florida's aerospace launch and logistics capabilities with Switzerland's renowned expertise in precision engineering, advanced research, and emerging deep tech sectors. Initial areas of focus include biotechnology, biomedicine, robotics, artificial intelligence, advanced manufacturing, and materials science—all critical technologies shaping the future of space exploration and commercialization.

Through this new international partnership, Space Florida is advancing its mission to strengthen global aerospace supply chains and position Florida as the primary launch point into the Americas. The agreement also supports the development of a dedicated logistics and trade hub that will create new commercial pathways for dual-use technologies, space-enabled services, and international market expansion.

The collaboration builds on Switzerland's legacy in aviation and innovation, particularly at Dübendorf—the birthplace of Swiss aviation. This strategic connection not only enhances Florida's international visibility but also cements its role in a wider network of global spaceports and research centers.

A key component of the partnership is the shared commitment to workforce development. By linking academic institutions and research networks in both regions, the agreement provides access to a diverse pool of highly qualified talent and young professionals in aerospace and high-tech disciplines. This effort will further support early-stage and scaling companies through testing infrastructure, commercialization programs, and technology transfer initiatives.

As the space economy continues to expand and evolve, partnerships like this will shape the next era of international cooperation—connecting continents, accelerating development, and solidifying Florida's place at the center of it all.

# Advancing Global Innovation Through the Space Florida–Israel Partnership

Space Florida continued to strengthen Florida's global leadership in aerospace innovation through its longstanding collaboration with the Israel Innovation Authority. Now in its twelfth year, the Space Florida–Israel Innovation Partnership Program remains a powerful engine for advancing technologies that support both economic growth and international cooperation. Florida and Israel have jointly funded \$22 million in innovative projects that have broad implications for the global aerospace sector, and have supported the research, development, and commercialization of aerospace and related technologies.

This year, the program awarded \$400,000 in joint funding to MySky Eco of Port Orange, Florida, and Airwayz of Tel Aviv, Israel. MySky Eco specializes in the design and manufacturing of light aircraft for general aviation and flight training, including both piston and electric-powered models that offer cost-effective solutions for a variety of aviation needs. Airwayz brings advanced Unmanned Traffic Management (UTM) software capable of orchestrating complex autonomous operations.

Together, the companies are developing an autonomous drone platform, designed to perform essential missions including search and rescue, organ transport, border reconnaissance, and package delivery. The project demonstrates how international R&D collaboration can accelerate the development of systems built for congested airspace and high-demand commercial environments.

Through this initiative, Florida-based companies gain access to Israel's world-renowned innovation ecosystem, while Israeli companies benefit from Florida's thriving aerospace infrastructure and market opportunities.

The most recent award reflects the program's ongoing commitment to driving forward-looking technologies, fostering cross-border innovation, and strengthening Florida's position as a leading hub in the evolving aerospace economy.

**Florida and Israel  
have jointly funded  
\$22 million in  
innovative projects**

# Inaugural Northwest Florida Pitch Event Connects Entrepreneurs with Investors

Space Florida partnered with the Florida Institute for Human & Machine Cognition (IHMC), TechFarms Capital, DeepWork Capital, the Florida Opportunity Fund (FOF), and Saltmarsh, Cleaveland & Gund to host its inaugural event, The Takeoff: Northwest Florida Pitch Day. The event connected market-ready startups and research teams with investors, showcasing how innovation in the region is fueling Florida's broader aerospace and technology economy.

Award-winning startups presented breakthrough innovations ranging from advanced sensing systems to next-generation defense tools and showcased cutting-edge technology from IHMC researchers. The event provided a platform not only for funding but also for critical connections between entrepreneurs, investors, and industry leaders.

The Takeoff reflects Space Florida's commitment to advancing innovation beyond the launch pad. By cultivating startups, accelerating commercialization, and attracting investment capital, Florida can remain a magnet for high-impact technology ventures. This initiative is part of a broader statewide strategy, building an ecosystem where entrepreneurs, researchers, and investors can thrive together. Across the entire state, Florida offers the infrastructure, partnerships, and investment networks needed to transform bold ideas into scalable solutions that drive the aerospace economy forward.

## THE TAKEOFF: BY THE NUMBERS

- **Inaugural event** in Pensacola
- **3 winning startups:** Ator Labs, RSAE Labs, Piersica
- **3 IHMC researchers** awarded for breakthrough projects
- **\$50,000** in total awards distributed
- **6 partner organizations** driving collaboration: Space Florida, IHMC, TechFarms Capital, DeepWorks Capital, Florida Opportunity Fund, Saltmarsh, Cleaveland & Gund

# The Takeoff

# Fueling Early-Stage Innovation: Space Florida & Florida Venture Forum

Florida's aerospace economy depends on bold new ideas, and Space Florida continues to ensure those ideas take off. Companies who have received Space Florida awards over the 24 capital accelerator events since 2011 have raised additional capital or had exits totaling nearly \$900 million since receiving such awards.

At the 17th Annual Early-Stage Venture Conference in Orlando, Space Florida partnered with the Florida Venture Forum to provide \$150,000 in cash awards to six standout companies shaping the future of aerospace, defense, and advanced technologies.

From artificial intelligence to next-generation aerospace components, this year's winners represent the entrepreneurial energy fueling Florida's high-growth sectors. Startups such as Oboro Labs, Rapta, VeriChem, and Zulu Pods were recognized for breakthrough solutions with applications such as safer water systems, opioid detection, self-contained jet engine components, and AI-powered manufacturing. Collegiate innovators also shared the stage, with teams from Florida Gulf Coast University and Florida Atlantic University earning top recognition.

The event drew 29 presenting companies from across the state, selected from a competitive pool of applicants. By partnering with the Florida Venture Forum, Space Florida continues to expand access to capital, strengthen Florida's startup ecosystem, and position the state as a magnet for high-impact innovation.

These investments are more than award dollars—they represent confidence in Florida's role as a global hub where early-stage ventures can scale into industry leaders.

## BY THE NUMBERS: EARLY-STAGE VENTURE CONFERENCE

- **17th annual conference** in Orlando
- **29 presenting companies** from across Florida
- **6 winning companies** awarded Space Florida investment
- **\$150,000 in total funding** distributed
- **2 collegiate winners** representing Florida Gulf Coast University & Florida Atlantic University

# FEATURED PARTNER: CECIL AIRPORT & SPACEPORT

Boeing made the important decision to expand its Florida footprint at Cecil Airport with the opening of a new \$245.8 million Maintenance, Repair and Overhaul facility. The 385,000-square-foot hangar will support maintenance and upgrades for a variety of aircraft, including the U.S. Navy's Blue Angels. Developed in partnership with Boeing, the Jacksonville Aviation Authority, and the City of Jacksonville, the project reflects a long-term investment in the region's aerospace capabilities, supported by a 25-year lease and local infrastructure funding.

The Jacksonville Aviation Authority advanced Northeast Florida's aerospace ambitions with a resolution supporting a federal re-entry license for Cecil Spaceport and the development of a new space vehicle facility. The effort would build on Cecil's existing assets—including its 12,500-foot runway and horizontal launch license—to expand the region's space capabilities. JAA is partnering with Space Florida and the Florida Department of Transportation on the initiative, which is eligible for state funding to support the federal review process required for a re-entry license.

## CECIL AIRPORT & SPACEPORT SNAPSHOT:

- **Approach Road Completed (Q2 2025):** 1.8-mile roadway and utilities opening direct access to Cecil Spaceport. Space Florida provided \$3M in utility grants.
- **Zero-G Campaign:** Fall 2024 test flights conducted at Cecil Spaceport.
- **University Rocket Testing:** Embry-Riddle, UF, and UCF held multiple rocket test events over the past year.
- **New Tenants:** Major leases signed with Hermeus (Aug '24) and Otto Aerospace (June '25).

# FEATURED PARTNER: STAR CATCHER

Space Florida is constantly at the forefront of the industry and forging strategic partnerships to advance next-generation aerospace innovation. Star Catcher, an emerging leader in space-to-space power beaming, is just one example of staying ahead of industry trends. Star Catcher plans to operate the Star Catcher Network—an orbital energy grid capable of beaming concentrated solar power directly to spacecraft. In what will be a leap forward in space power delivery, this will dramatically enhance onboard energy generation, 5 to 10 times more than what satellites can currently harvest from the Sun.

To validate this groundbreaking technology, Star Catcher selected Space Florida's Launch and Landing Facility (LLF) for a large-scale demonstration. The LLF offers 3 miles of unobstructed, straight-line-of-sight, providing an ideal environment to beam hundreds of watts of energy over more than a half a mile to multiple simulated satellites simultaneously. This live test, a powerful signal of the feasibility and scalability of space-based power delivery, underscores Florida's role as a launchpad for pioneering technologies.

In addition to providing the test site, Space Florida also included a direct investment, reinforcing its mission to nurture breakthrough aerospace companies and speed time to market.

Working with Star Catcher demonstrates how Florida blends historic infrastructure with forward-looking innovation to support transformative aerospace ventures. By offering mission-ready facilities, flexible capital, and strategic support, Space Florida continues to empower entrepreneurs who are building the next generation of space capabilities.

Space-based power is emerging as a key technology with immense military and commercial applications. Florida is well positioned to lead this nascent industry.

# FEATURED PARTNER: LEONARDO

## FROM NORTHWEST ITALY TO NORTHWEST FLORIDA

From South Florida to Northwest Florida, aerospace is thriving across every corner of the state. One of Space Florida's top projects now complete is the Leonardo Florida Support Center, a \$65 million investment that demonstrates how global aerospace leaders are choosing Florida not only for launch but also for advanced aviation, defense, and manufacturing. Gov. Ron DeSantis and Lt. Gov. Jay Collins both celebrated the grand opening of the new facility, highlighting the state's deep support for the industry and broadening Florida's aerospace footprint.

Located in Santa Rosa County, this state-of-the-art facility will serve as a critical hub for maintaining and supporting the U.S. Navy's fleet of training helicopters, as well as providing logistics and technical expertise for Marine Corps and Coast Guard aircraft. By strengthening sustainment capabilities for the U.S. military, the Florida Support Center ensures that aircraft critical to national defense remain mission-ready, reliable, and equipped with the latest technology.

The project also represents a powerful economic catalyst for Northwest Florida. Hundreds of high-value career opportunities ranging from technical aviation roles, logistics, supply chain management, and advanced manufacturing. This infusion of talent will benefit both the local workforce and the broader aerospace ecosystem by expanding the region's technical skill base and creating opportunities for long-term growth.

For Space Florida, projects like this highlight the full spectrum of the state's aerospace economy. While Florida is recognized worldwide for its leadership in space launches, aerospace is much broader. It encompasses aviation, defense, manufacturing, research, and the advanced technologies that connect them. Leonardo's decision to expand here reinforces Florida's ability to deliver across all these sectors, ensuring that companies can grow and thrive in an environment designed for innovation.

Equally important, the Leonardo Florida Support Center demonstrates the success of Florida's long-term strategy of investing in infrastructure and cultivating strong industry partnerships. By providing an environment where companies can build advanced facilities, collaborate with military and civilian partners, and tap into a growing pipeline of skilled workers, Florida continues to prove itself as a global leader in aerospace.

The opening of this facility sends a clear signal to the industry: Florida is the place to invest, innovate, and succeed. With projects like the Leonardo Florida Support Center, the state is not only shaping the future of flight—it is strengthening the foundation of an entire ecosystem that will support aerospace for decades to come.

# FEATURED PARTNER: AMAZON LEO

## (FORMERLY AMAZON PROJECT KUIPER)

Florida's aerospace ecosystem continues to attract the world's most ambitious players, and few examples demonstrate this momentum more clearly than Amazon Leo, formerly referred to by the code name Project Kuiper. During FY25, the company marked two major milestones: the completion of its satellite processing facility at Space Florida's Launch and Landing Facility (LLF) and the successful launch of its first production satellites from Cape Canaveral on April 28, 2025.

The Amazon Leo facility at the LLF is one of the largest satellite integration and processing centers of its kind, purpose-built to support the deployment of a constellation that will deliver high-speed, low-latency broadband to underserved communities around the globe. By situating this operation in Florida, Amazon Leo gains direct access to launch infrastructure, streamlined logistics, and a skilled workforce—advantages that enable faster, more efficient deployment of its satellites.

That first production launch, "KA-01," carried 27 satellites and represented the start of Amazon Leo's full-scale deployment, further solidifying Florida's role as the global leader in space commerce. Amazon also announced a \$19.5 million expansion to the Florida site that will add more specialized processing areas and create new jobs. This additional investment reflects Amazon's confidence in Florida's aerospace ecosystem and ensures that the LLF will remain central to the program's long-term growth.

For Space Florida, the success of Amazon Leo reflects the importance of long-term investment in infrastructure and partnerships that serve the entire aerospace value chain. From ground facilities and integration centers to launchpads and logistics corridors, Florida is creating the foundation that allows companies to scale at speed.

Amazon Leo's progress is proof of how Florida's aerospace ecosystem is enabling the future of communications, commerce, and connectivity worldwide. By anchoring its operations at the LLF, Amazon Leo enhances the spaceport as a premier global center for space commerce and has joined the growing list of global innovators building their future in Florida.

# FEATURED PARTNER: BAE SYSTEMS

Space Florida's commitment to expanding its footprint across the state continues to generate powerful results, with projects that go beyond traditional space activity to include innovations in aviation, defense, and maritime industries. One of the best examples of this vision is BAE Systems' new shiplift and land-level ship repair facility in Jacksonville, a \$250 million project that officially opened in June 2025.

Why was Space Florida involved in a shiplift project? Space Florida has the authority to leverage its toolkit for the benefit of the aerospace industry, which includes projects like BAE Systems. Military and defense activities are a core part of Space Florida's focus, which extends to supporting technologies and infrastructure that strengthen national security and advance the broader aerospace ecosystem. Projects that serve our national security directly align with Space Florida's vision for the future. By engaging in initiatives that enhance military capability and readiness, Space Florida helps ensure that Florida remains a strategic asset to the nation, supporting both commercial growth and critical defense operations.

This expansion represents a significant leap forward in shipyard capabilities, expanding docking capacity by roughly 300 percent and creating space to service both military and commercial vessels. The new Pearlson-designed shiplift can accommodate vessels displacing up to 25,000 tons—including a U.S. Navy Flight III guided missile destroyer—making it one of the most advanced facilities of its kind in the nation.

For Florida, the project carries impact well beyond the shipyard gates. The expansion helps strengthen the Jacksonville region's role as a hub for aerospace-adjacent industries. By fostering this kind of growth, Space Florida is advancing its statutory mandate to support a wide spectrum of aerospace applications—air-based, land-based, space-based, and sea-based platforms—for commercial, civil, and defense purposes.

The BAE Systems project exemplifies how strategic investments and strong partnerships can propel Florida's economy while reinforcing national security. It also demonstrates Space Florida's intentional effort to diversify the locations and industries represented in its project pipeline. Florida is building a future where aerospace innovation connects seamlessly with defense, maritime, and advanced manufacturing sectors.

With BAE Systems' expansion now operational, Florida has added another world-class facility to its portfolio of advanced infrastructure, one that will drive innovation, create high-quality jobs, and strengthen the state's reputation as the global leader in aerospace commerce and its related industries.

# FEATURED PARTNER: SPACEX

Florida continues to cement its place as the epicenter of space operations, and SpaceX's Starship is a testament to the strength of that position. The company has begun construction of Gigabay, a massive integration and refurbishment facility at the Cape that will redefine aerospace infrastructure. The project includes at least \$1.8 billion of direct SpaceX capital investment into the Florida economy. SpaceX's Gigabay coming to Florida is a testament to a strong collaboration between Space Florida, the FloridaCommerce, and the Florida Department of Transportation efforts.

Standing 380 feet tall and encompassing more than 815,000 square feet of workspace, Gigabay will provide 24 work cells to support Starship and Super Heavy vehicles up to 266 feet tall. Outfitted with cranes capable of lifting 400 U.S. tons, the facility offers more than eleven times the square footage of SpaceX's current Megabay buildings, making it the company's largest integration facility in the world. Construction is targeted for completion by the end of 2026.

To complement Gigabay, SpaceX is planning a co-located manufacturing facility on the Space Coast to enable full production of Starships in Florida. Until that facility comes online, completed Super Heavy boosters and Starship upper stages will be transported to the Cape via barge to enable Starship-Super Heavy Launches from Florida. Together, these facilities will allow SpaceX to rapidly accelerate reusability, flight cadence, and launch capacity—all critical to advancing Starship's long-term mission of making humanity multiplanetary.

At the same time, SpaceX is building the future of Starship launch operations in Florida. The company is developing a Starship launch and catch site at Launch Complex 39A at Kennedy Space Center, incorporating new design innovations. The scale of this investment underscores why Florida is the global leader in aerospace commerce. A thriving space sector in Florida means a steadier economy, where businesses can plan ahead, invest, and grow with confidence. With unmatched infrastructure, workforce, and an unbeatable business environment, Florida offers the ecosystem companies like SpaceX need to take on the world's most ambitious projects. Space Florida is proud to play a role in enabling this next chapter of innovation, ensuring that Florida is driving the industry's future forward.

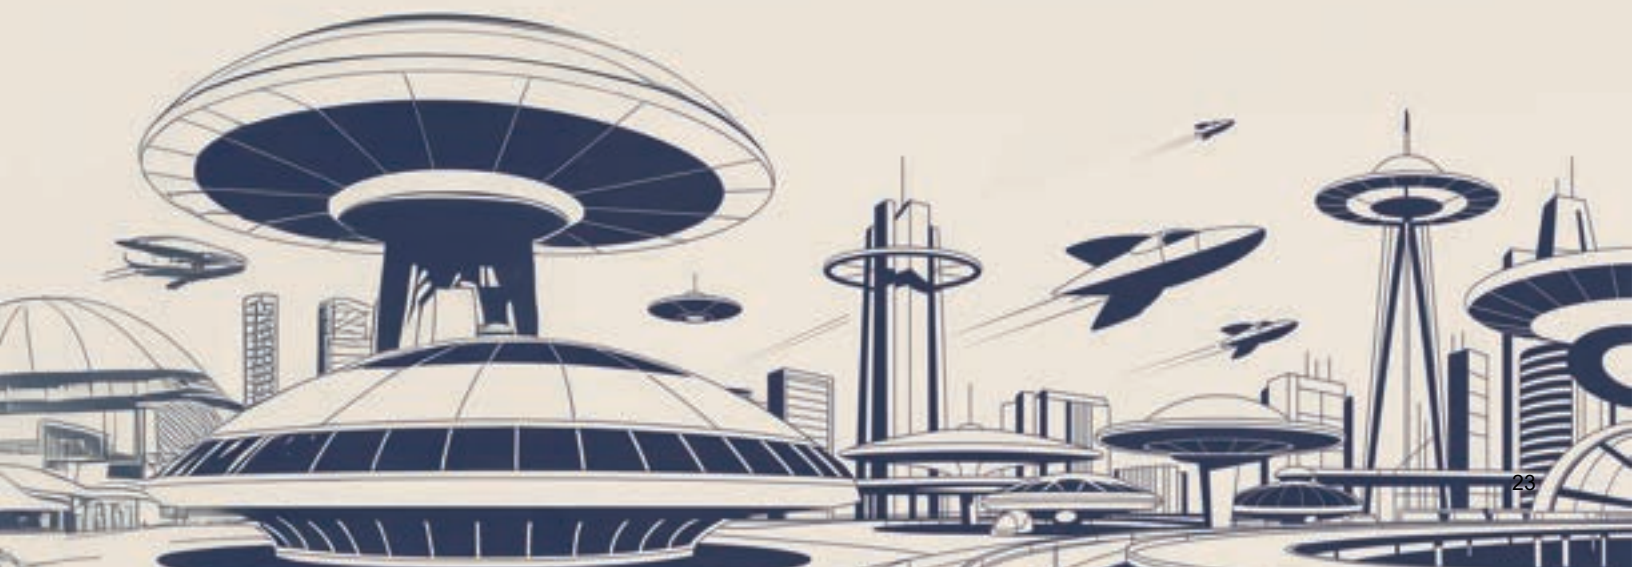

# FEATURED PARTNER: WILLIAMS INTERNATIONAL

Williams International's decision to build a high-volume aviation gas turbine engine manufacturing facility in Okaloosa County has emerged as one of FY25's landmark wins for Florida. Anchored in the Shoal River Industrial Park of Northwest Florida, a recently designated Rural Area of Opportunity (RAO), this multi-phase project, totaling over \$1 billion in investment, broke ground with Lt. Gov. Jay Collins and community leaders, reinforcing Florida's growing strength in advanced aviation and manufacturing and serving both commercial and defense aviation markets.

The facility will be developed in three phases. The first structure, roughly 250,000 square feet, has a target completion in late 2026. Subsequent expansions are planned, including larger facilities in 2028 and a final expansion around 2035-36. Once fully operational, the site will greatly enhance regional capacity and capability for gas turbine engine production.

Space Florida was privileged to partner early in this effort alongside state, regional, and local stakeholders—including Okaloosa County, FloridaCommerce, CareerSource Florida, Triumph Gulf Coast, and Florida's Great Northwest—to support the site's readiness, workforce development, and infrastructure alignment. This project showcases how intentional collaboration, strategic placement, and proactive investment can create long-term economic impact for communities outside Florida's traditional aerospace hubs.

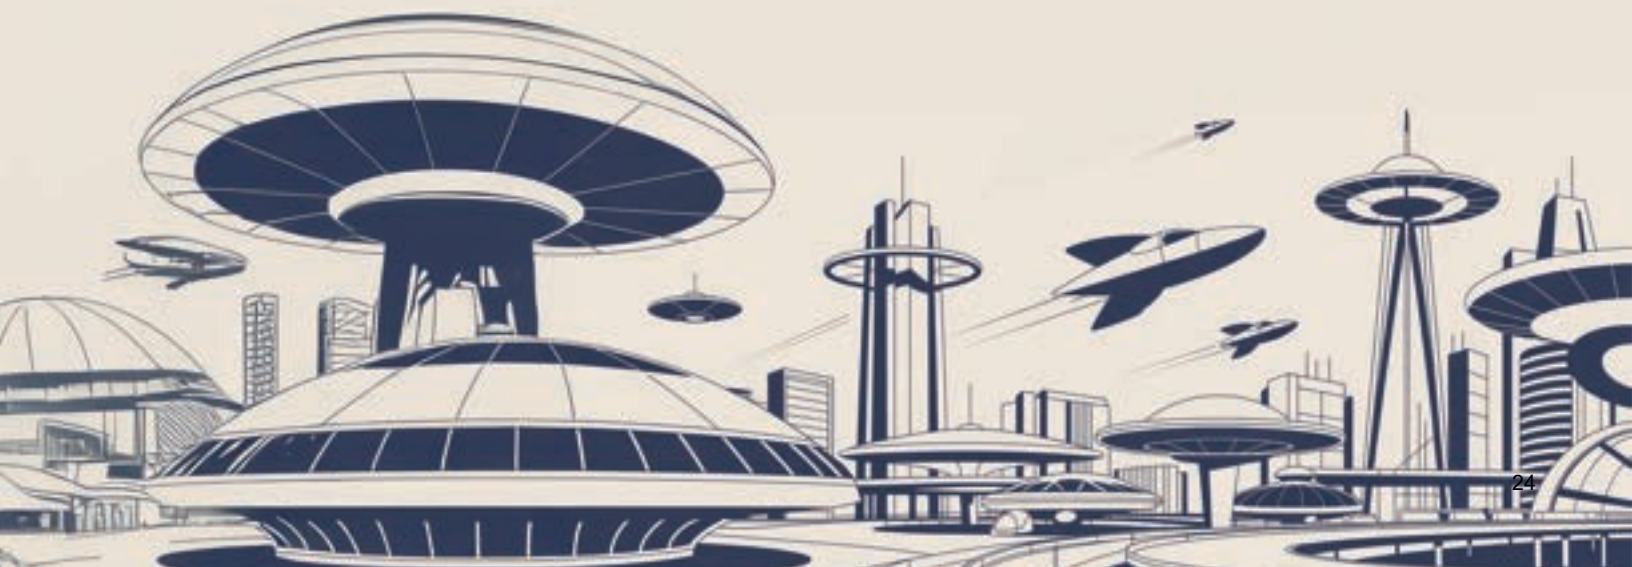

Beyond its regional value, the Williams International facility contributes directly to Florida's broader vision for aerospace and aviation leadership. Projects like this help ensure that Florida isn't merely a participant in the industry's next phase, but a leader.

# FEATURED PARTNER: AURA AERO

AURA AERO Inc., a French aviation designer and manufacturer, has committed to establishing a 500,000-square-foot manufacturing and assembly plant in Florida. Located at Embry-Riddle Research Park in Daytona Beach, the project represents a capital investment of approximately \$172.5 million. Space Florida has played a key role in bringing AURA AERO's project to fruition. Working with state and local partners, including Embry-Riddle Aeronautical University, Space Florida helped amplify Florida's competitive advantages in infrastructure readiness, talent supply, and business climate. The project was secured over competing locations in Texas, Alabama, Ohio, and Georgia—underscoring Florida's ability to win significant, technically sophisticated aerospace manufacturing assignments.

This investment aligns closely with Space Florida's 2035 goals, reinforcing the state's capacity to support not just launch-centric aerospace growth, but also advanced aviation, manufacturing, and technology R&D. With projects like AURA AERO's facility, Florida is upgrading its industrial base, expanding workforce opportunities, and building the diversity of aerospace sectors that will propel sustained economic growth across the state.

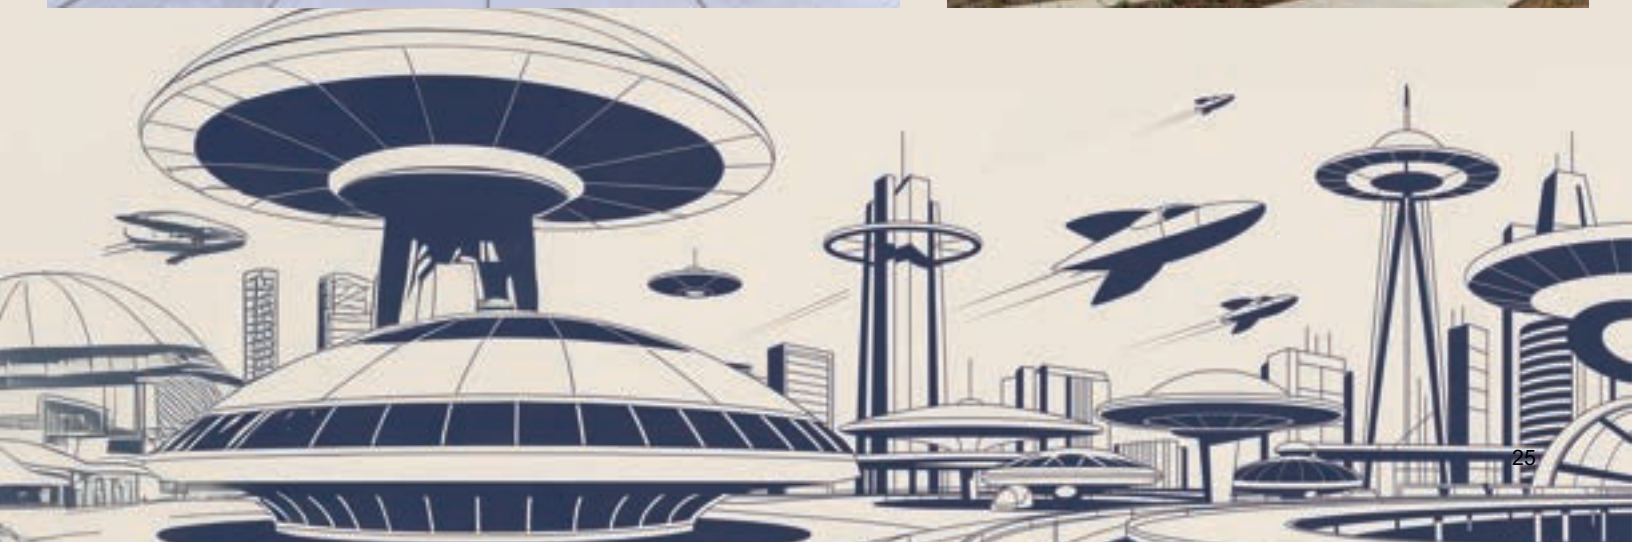

# FEATURED PARTNER: BOEING & EMBRY RIDDLE AERONAUTICAL UNIVERSITY

Boeing opened its new Engineering Center in the Cici & Hyatt Brown Center for Aerospace Technology at Embry-Riddle Research Park with Gov. Ron DeSantis, a facility that spans 65,000 square feet and focused on engineering design, research, development, and prototyping for Boeing Defense, Space & Security's Air Dominance programs. The facility is now operational.

This new facility is also strategically designed to address some of the most pressing challenges facing the aerospace industry today—expanding the pipeline of highly skilled engineers, accelerating applied research from concept to capability, and integrating new technologies into next-generation systems. By situating this capability at Embry-Riddle, Boeing is bringing together students, faculty, and industry leaders under one roof, helping to close critical workforce and innovation gaps.

For the State of Florida, the project reflects the strength of aligning industry, academia, and infrastructure to build sustainable aerospace clusters across the state. It underscores the role Florida plays in providing not just locations for growth, but the environment where innovation can take hold and thrive.

As the Boeing Engineering Center scales and deepens its connections to the broader aerospace ecosystem, it reinforces Space Florida's long-term vision of advancing statewide capacity, expanding research and prototyping capabilities, and supporting the next generation of aerospace talent.

# ACCELERATING THE MOMENTUM IN SPACE POLICY

The rapid expansion of the global space economy brings extraordinary opportunity and a need to further enhance Florida's predictable, forward-looking regulatory framework. Building a resilient and investable space market requires innovation in orbit and demands innovation in policy. Many policy initiatives that Space Florida previously identified as opportunities to expand Florida's position as the premier global hub of aerospace commerce have recently become a reality and have positioned Florida to lead on global space policy. When Florida positions such policy changes as state priorities, it further establishes its leadership among industry members and federal partners and has potential to radically transform space transportation. By guiding policy in the proper direction, Florida has and will continue to effectively pave the way for further policy development that can create lasting benefits for the state and its aerospace sector.

Florida continues to set the standard for what aerospace commerce should look like across the nation, facilitating the safe and sustainable growth of the space sector with sound, proactive policy. Further, it has been mindful of the demand signals to enable key policy reform and has worked to establish new precedents that benefit the state, national, and global space economy.

However, U.S. foreign adversaries such as China have significantly increased their investment in the space domain. The federal government, based on this increasing threat environment, is putting renewed focus on space policy—already taking some steps to address a potentially narrowing gap. Space Florida has identified new initiatives to pursue and align with this momentum for change across multiple layers of government. The space domain is recognized as an even more pressing national security priority for federal stakeholders, and subsequent initiatives pursued will build on the success of recent policy enactment to further solidify Florida's leadership in the space sector, while enhancing the nation's potential to meet its exploration and national defense priorities from the nation's premier aerospace hub, Florida.

# SPACE BONDS

On July 4, 2025, President Trump signed the One Big Beautiful Bill Act into law, which included a provision adding spaceports as a qualified tax-exempt category for private activity bonds, enabling tax-exempt bond financing of spaceports throughout the nation. This major policy change was first championed and pushed by state leaders through a Senate Memorial sponsored by Florida Sen. Tom Wright and Rep. Tyler Sirois, and signed by Gov. Ron DeSantis in 2024. In just over a year's time, Space Florida worked with key members within Florida's Congressional delegation to make this proposed policy shift a reality—better positioning Florida to attract new private sector investment in the state's spaceport ecosystem and supporting the broader national spaceport ecosystem. U.S. Sen. Ashley Moody and Rep. Neal Dunn were congressional leaders who carried the smart policy change that will attract more private investment in our spaceports over the finish line.

Spaceport tax-exempt bonds can now help transform spaceports in Florida by enabling more modern and robust capabilities to be constructed at lower infrastructure development costs, mirroring the financing methods used by airports and seaports. The future improvements at spaceports across the nation because of this policy change will enhance the resilience of these sites and increase their utility for both industry members and federal partners to leverage them more effectively. Aligning spaceports with other modes of transportation in terms of financing tools highlights a positive trend that is necessary to meet the challenges presented to the nation in space operations; spaceports will now be another step closer to being treated the same as other modes of transportation at the federal level, offering a great point of departure for future policy initiatives to enable even further growth across the national spaceport ecosystem. Understanding that spaceports are more than just launch or re-entry sites, this new financing tool also applies to other facilities for related manufacturing and other industrial applications critical to the spaceport ecosystem.

# KEY STATE POLICY WINS FOR AEROSPACE

From the UK to Australia to Asia-Pacific, Space Florida heard from many countries who are actively seeking to collaborate, open new investment channels, and develop technology-sharing programs with Florida to advance their position in the expanding aerospace economy. These nations recognize that Florida is already miles ahead of other states and countries. The global space economy is projected to grow to \$1.8 trillion by 2035, driven by increasing demand for commercial space activities. To stay ahead, Florida must actively capitalize on this growth.

Rep. Kim Kendall and Sen. Tom Wright led the charge for an initiative that draws on international partnerships to fund projects that address the aerospace technology challenges of our time, ultimately bolstering Florida's position as the premier hub of global aerospace commerce.

On June 17, 2025, Governor Ron DeSantis signed Senate Bill 1516, establishing the International Aerospace Innovation Fund (IAIF). Space Florida led the charge on the creation of this new fund which enables Space Florida to better support the growing international interest in Florida's aerospace ecosystem. Further, the new fund can leverage private sector investment, international contributions by foreign industry development organizations and entities, and state appropriations to fund projects concerning critical technology development in the state. Meeting the new space exploration and defense challenges presented to the nation will require collaboration with international partners. Florida is best positioned to host such collaborations based on its existing aerospace sector presence, capitalizing on the state's leadership in fostering a healthy base of innovative American and international aerospace companies. Future aerospace technologies that will address geopolitical or science challenges in space may spawn from some of the partnerships forged through the IAIF.

# KEY STATE POLICY WINS FOR AEROSPACE

Florida's quintamodal accomplishments during the 2025 Legislative Session included the passage and signing of Senate Bill 1662 (sponsored by Sen. Jay Collins), which enacts new policy changes across Florida's quintamodal transportation sectors to meet the demands of the state's growing economy, including our commercial space industry. Key provisions included:

- ✦ Establishing the Florida Transportation Research Institute to provide an epicenter for Florida universities and aerospace industries to conduct high value research and innovation.
- ✦ Providing new funding mechanisms for projects involving spaceports and manufacturing, including infrastructure to support commercial space launch operations at any Spaceport territory in Florida.
- ✦ Protecting aerospace interests by preventing space-designated land at seaports from being repurposed for non-space activities. With limited real estate around Cape Canaveral, this ensures Florida's long-term competitiveness in this industry, given that 60% of all global space launches currently launch from Florida.
- ✦ Establishing dedicated plans for Advanced Air Mobility (AAM)—positioning Florida as a leader in next-generation aviation technologies.
- ✦ Providing FDOT the framework to invest in the construction of vertiports, beginning with the first facility at SunTrax to support AAM research, testing and deployment.

Together these provisions enhance Florida's competitive position as a national and global hub for space activity by strengthening multimodal connectivity, protecting aerospace infrastructure, and research and planning capacity that directly benefits the space sector. With the signing of SB 1516 and SB 1662, Florida is solidifying itself as the premier location for private investment, advanced manufacturing, aerospace innovation, and transportation development.

# FLORIDA UNIVERSITY SPACE RESEARCH CONSORTIUM: ADVANCING RESEARCH, TALENT, AND FLORIDA'S LEADERSHIP

In 2024, Florida created the first-of-its-kind collaboration in aerospace research: The Florida University Space Research Consortium. This initiative brings together three of the state's premier institutions — the University of Florida (UF), the University of Central Florida (UCF), and Embry-Riddle Aeronautical University (ERAU) — as the state's official space research entity.

Backed by Space Florida's leadership and formally recognized by its Board of Directors, the consortium is now positioned to compete for and manage NASA research grants in direct partnership with Kennedy Space Center. This designation marks a major milestone for Florida, as no other state has consortium of multiple universities formally affiliated with one of NASA's centers.

The consortium's mission is clear: to harness the unique strengths of Florida's top research universities, amplify our collective research capabilities, and create a unified front in advancing space science, technology, and policy. By building this bridge between academia, government, and private industry, Florida is cementing its role as the place where ideas become innovations and innovations become industry.

This effort is focused on academic research and about preparing the workforce of tomorrow, empowering students to work on projects at the forefront of aerospace, and ensuring that Florida continues to supply the highly skilled talent needed for a rapidly expanding space economy. It's also critical in securing the state's leadership in space policy and technology development, with research outcomes that will shape the future of exploration, commerce, and national security.

The creation of the consortium reflects Space Florida's ongoing strategy to foster partnerships, build capacity, and attract high-value projects that will fuel Florida's growth. With NASA Kennedy Space Center as a key partner, the consortium provides Florida with an unmatched advantage in shaping the direction of U.S. space research.

In the years ahead, the consortium is expected to expand to include other Florida universities with expertise in space-related fields, creating a truly statewide network of collaboration. This will not only enhance the depth of research but also strengthen the state's aerospace ecosystem with broader scientific, technical, and workforce initiatives.

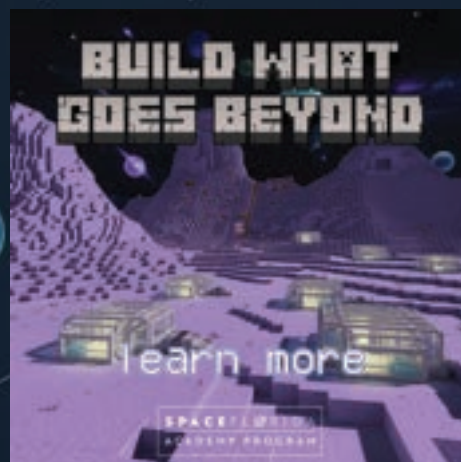

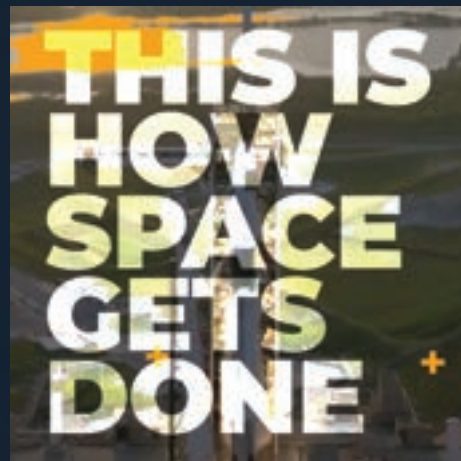

# SPACE FLORIDA ACADEMY PROGRAM UPDATE

In 2025, the Space Florida Academy Program advanced its mission to build Florida's future aerospace workforce by continuing to expand access to aerospace industry-aligned credentials across the state. The program is partnering with 23 school districts across 185 high schools to deliver hands-on learning experiences that introduce students to aerospace opportunities that are stable and well-paying.

Through these efforts, the Academy Program equipped thousands of students with foundational skills tied to Florida's rapidly growing space economy. In its inaugural year, the program awarded 6,000 certificates to students who successfully finished certified courses, reflecting a growing interest in aerospace career pathways and aligning with Space Florida's long-term goals for workforce development.

The Space Florida Academy Program continues to strengthen Florida's broader aerospace ecosystem by connecting students with real-world industry activity. As demand for both traditional and non-traditional space-related skills accelerates, the Academy is positioned to scale further, reaching more districts, issuing more certificates, and preparing more students for the opportunities within Florida's globally competitive aerospace sector.

# 2025 FLORIDA SPACE ART CONTEST

Space Florida continued its commitment to fostering the next generation of aerospace innovators through the fourth annual Florida Space Art Contest. This statewide initiative invited K-5 students to envision the future of space exploration, aligning with the theme driven by Board of Directors Chair Jeanette Nuñez: Liftoff! Florida's Spaceship of the Future. The contest not only showcased the artistic talents of young Floridians but also highlighted the state's role as a leader in the aerospace industry.

The contest received submissions from all across the state, with the highest participation from Collier, Broward, and Putnam Counties. Entries were categorized into two groups: Kindergarten through 2nd grade and 3rd through 5th grade. From these, ten finalists were selected, each awarded two tickets to the Kennedy Space Center Visitor Complex. The two grand prize winners, one from each category, earned the unique honor of having their artwork launched into space on an upcoming mission.

The 2025 grand prize winners were:

**Aavya Verma** – 1st Grade, Broward County

**Adam Faulkner** – 5th Grade, Broward County

This contest reflects Space Florida's broader mission to inspire and engage the next generation of aerospace professionals. By integrating art and science, the contest provides a platform for students to explore and express their understanding of space exploration. The positive response and participation in the contest demonstrate the growing interest and enthusiasm among young Floridians for careers in aerospace and STEM fields.

## **INDEPENDENT AUDITOR'S REPORT**

The Board of Directors  
Space Florida  
Exploration Park, Florida

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the accompanying financial statements of Space Florida, a component unit of the State of Florida, as of and for the year ended September 30, 2024 and the related notes to the financial statements which collectively comprise the entity's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Space Florida as of September 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Space Florida and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Space Florida's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Space Florida's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Space Florida's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Space Florida's basic financial statements. The accompanying schedule of expenditures of state financial assistance, as required by Chapter 10.550, Rules of the Florida Auditor General, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and the schedule of travel, business meals and incidental expenses but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated May 6, 2025, on our consideration of Space Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Space Florida's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Space Florida's internal control over financial reporting and compliance.

*Carr, Rigg & Ingram, L.L.C.*

## **Space Florida**

### **Management's Discussion and Analysis**

As management of Space Florida, we offer readers of Space Florida's financial statements this narrative overview and analysis of the financial activities of Space Florida for the years ended September 30, 2024 and 2023.

Effective September 1, 2006, Pursuant to Chapter 2006-60, Laws of Florida, a law enacted by the Florida Legislature during its 2006 Regular Session, Space Florida was created as an independent special district and subdivision of the State. Space Florida serves as the State's principal government aerospace entity, responsible for aerospace related infrastructure development, industry recruitment and education/research in partnership with federal agencies and private industry; for providing leadership for development of space transportation infrastructure; and for implementation of space commercialization and development programs.

Space Florida is the state's aerospace finance and development authority and utilizes various funding sources to operate programs that retain, attract and expand new business to Florida, and to promote Florida as the global and interplanetary hub for aerospace commerce. Space Florida is responsible for accelerating the growth of the aerospace related industry within Florida's economic goals through targeted aerospace business retention, expansion, and diversification efforts in addition to providing leadership in innovative educational, research and development and workforce development programs and space related infrastructure development projects. A key competitive advantage for Florida in the market is the multiple year relationships it creates with entities that choose Florida for their base of growth.

#### **Financial Highlights**

- The assets of Space Florida exceeded its liabilities for the years ended September 30, 2024 and 2023 by \$129,951,356 and \$138,794,840 (net position), respectively.
- Space Florida's total net position decreased by \$8,843,484 and increased by \$3,024,193 for the years ended September 30, 2024 and 2023, respectively.
- Space Florida's state appropriated revenue for operations for the years ended September 30, 2024 and 2023 was \$15,506,855 and \$18,512,739, respectively.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Space Florida's basic financial statements. Space Florida's basic financial statements are comprised of two components: financial statements and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The basic financial statements report information using the full accrual accounting methods as utilized by similar business activities in the public sector. The financial statements include a Statement of Net position, a Statement of Revenues, Expenses and Changes in Net Position and a Statement of Cash Flows.

The Statement of Net Position presents information on all of Space Florida's assets and liabilities, with the difference between the two reported as net position. Over time, changes in net position may serve as an indicator of the financial status of Space Florida.

## **Space Florida**

### **Management's Discussion and Analysis**

The Statement of Revenues, Expenses and Changes in Net Position presents information showing how Space Florida's net position changed for the years ended September 30, 2024 and 2023. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The Statement of Cash Flows presents changes in cash and cash equivalents from operational, financing, and investing activities. This statement presents cash receipt and disbursement information without consideration of the earnings event when an obligation arises or depreciation of capital assets.

The basic financial statements can be found on pages 16-20 of this report.

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements and thus are an integral part of these financial statements. The notes to the financial statements can be found on pages 21-36 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents other supplementary information. This supplementary information can be found on page 40 of this report.

#### **Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of an entity's financial status. Assets exceeded liabilities as of September 30, 2024 and 2023 by \$129,951,356 and \$138,794,840, respectively. The net position balance decreased by \$8,843,484 and increased by \$3,024,193 for the years ended September 30, 2024 and 2023, respectively.

## Space Florida Management's Discussion and Analysis

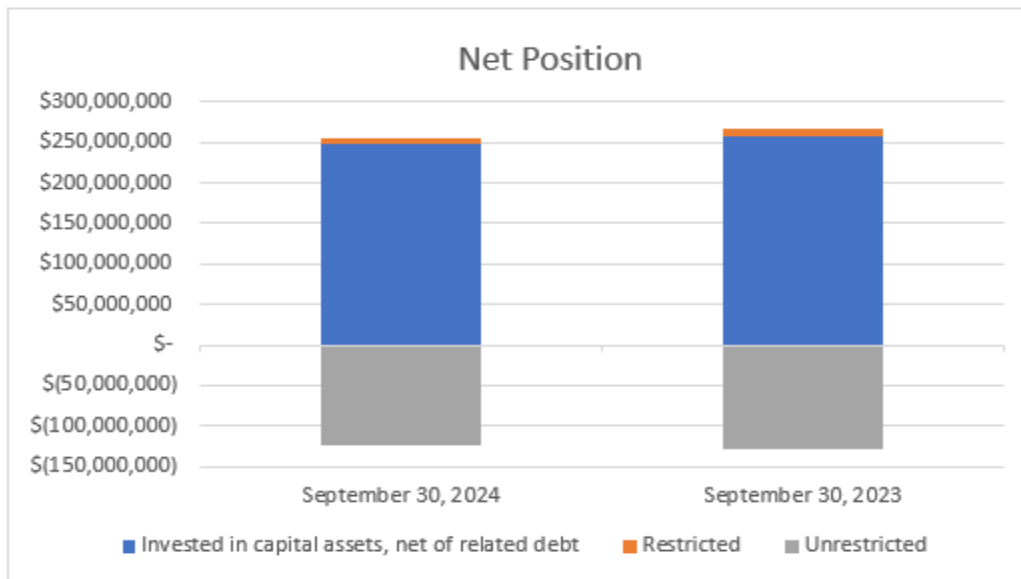

The following table reflects the condensed Statement of Net Position.

### *Space Florida Net Position*

|                                           | 9/30/2024             | 9/30/2023             |

| Other liabilities                         | 9,561,505             | 3,012,995             |
| <b>Total liabilities</b>                  | <b>96,040,643</b>     | <b>86,029,330</b>     |
| <b>Deferred inflows related to leases</b> | <b>190,717,951</b>    | <b>195,413,031</b>    |
| Net position:                             |                       |                       |
| Invested in capital assets, net           |                       |                       |
| of related debt                           | 248,055,014           | 257,621,902           |
| Restricted                                | 6,182,201             | 10,024,366            |
| Unrestricted                              | (124,285,859)         | (128,851,428)         |
| <b>Total net position</b>                 | <b>\$ 129,951,356</b> | <b>\$ 138,794,840</b> |

The largest portion of Space Florida's net position as of September 30, 2024 (191 percent) and September 30, 2023 (186 percent) reflects its investment in capital assets (e.g., buildings, equipment, construction in progress, right-to-use asset, and subscription-based information technology arrangements "SBITA"), less any related outstanding debt used to acquire those assets. As of September 30, 2024 and September 30, 2023, Space Florida was able to report positive balances in two categories of net position. The negative balance in unrestricted is the result of implementation of GASB No. 87, Leases. Prepaid expenses related to donated assets accounted for under previous guidance were removed with the implementation of GASB No. 87. The deficit net position will be recovered as Space Florida recognizes the revenue currently in deferred inflows.

## Space Florida Management's Discussion and Analysis

The following table shows condensed revenue and expense data.

### Space Florida Changes in Net Position

## Space Florida Management's Discussion and Analysis

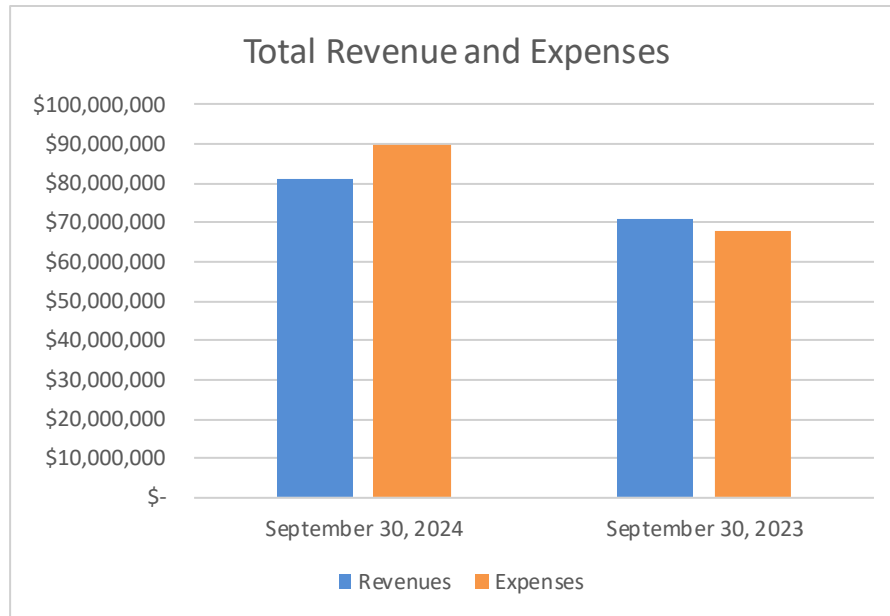

**Contributing to the Changes in Net Position.** For the year ended September 30, 2024, the decrease in net position consisted of \$4,807,873 net increase from operating activity with a \$13,651,357 net decrease from non-operating activity that included \$1,766,654 in interest income, \$1,363,849 in interest expense, \$11,677,888 loss on the disposal of capital assets and \$2,376,274 in impairment loss. For the year ended September 30, 2023, the increase in net position consisted of \$6,614,722 net decrease from operating activity with a \$9,638,915 net increase from non-operating activity that included \$9,629,630 in capital contributions, \$1,302,963 in interest income, \$1,189,278 in interest expense, \$24,400 loss on the disposal of capital assets and \$80,000 in impairment loss.

Operating revenues totaled \$79,213,915 and \$59,940,937 for the years ended September 30, 2024 and 2023, respectively. Of this amount, 20 percent and 31 percent, respectively, were from State appropriated funding. 42 percent and 44 percent, respectively, were from Other grant revenue - operating with the remaining being generated from fees and charges for services. In addition, Space Florida reported non-operating revenues of \$1,766,654 and \$10,932,593 for the years ended September 30, 2024 and 2023, respectively.

Operating expenses were \$74,406,042 and \$66,555,659 for the years ended September 30, 2024, and 2023, respectively. Of those totals, 15 percent for both reporting years were related to general operations, which consist of support for the execution of Space Florida's responsibilities as a state-created entity, facilities management and policy-related responsibilities. In addition and related to the ownership and management of the operation of the facilities, depreciation and amortization totaled \$15,642,108 and \$15,300,167 for the years ended September 30, 2024 and 2023, respectively. Amortization was related to new GASB No. 87 lease standards and SBITA.

As directed by statute, Space Florida is also responsible for fostering the growth and development of a sustainable and world-leading aerospace industry in the State and thus is responsible for accelerating the growth and diversification of aerospace-related economic development throughout the State. Space Florida is partnering with other State entities to accomplish these directives. For the years ended September 30, 2024 and 2023, Space Florida expended 64 percent and 62 percent, respectively, of its operating expenditures to create and direct activities and programs that retain, attract and help expand aerospace businesses in Florida.

## Space Florida Management's Discussion and Analysis

### Capital Asset and Debt Administration

**Capital assets.** Space Florida's investment in capital assets as of September 30, 2024 and 2023, amounted to \$248,055,014 and \$257,621,902 (net of accumulated depreciation and debt), respectively. This investment in capital assets includes land, buildings, improvements, construction in progress, and equipment (including GASB 87 and 96 RTU assets). The balance in construction in progress as of September 30, 2024 consist primarily of a construction project.

**Rights and Access.** Space Florida has agreements with the Cape Canaveral Air Force Station Center for the right to use Space Launch Complex 46 for the development of multi-use vertical launch capabilities related to governmental, educational and commercial initiatives. Space Florida has an enhanced use lease agreement with NASA'S John F. Kennedy Space Center for 199 acres to develop a mixed-use multi-tenant technology and commerce park referred to as "Exploration Park" and a 30-year master property agreement for the Shuttle Landing Facility. Additional information can be found in Note 8 on pages 30-35 of this report.

**Long-term debt.** Space Florida entered into a loan agreement with a bank in the amount of \$17,500,000 in fiscal year 2014. The note was scheduled to mature on January 30, 2015, however, the note was converted on January 30, 2015, to a 3-year repayment term, amortized over a 20-year term. The interest rate is equal to the Note Rate that was in effect on the date immediately preceding the Conversion Date. Subsequent amendments were executed extending the maturity date with the same terms. In fiscal year 2020, Space Florida renegotiated the terms of the loan with a new maturity date of July 1, 2027, and an interest rate of 3.021% per annum. Payments of principal and interest are due quarterly beginning on October 1, 2020. The note was paid in full in November 2023.

## Space Florida Statement of Cash Flows

*For the year ended September 30,*

**2024**

**Cash flows from operating activities:**

|                                               |               |
|-----------------------------------------------|---------------|
| Cash received from customers and users        | \$ 40,965,439 |
| Cash paid to suppliers for goods and services | (52,351,701)  |
| Cash payments to employees for services       | (6,814,498)   |
| Operating grant receipts                      | 52,591,816    |
| Net cash provided by operating activities     | 34,391,056    |

**Cash flows from capital and related financing activities:**

|                                                           |              |
|-----------------------------------------------------------|--------------|
| Proceeds from custodial debt                              | 64,919,322   |
| Payments on construction of custodial project             | (68,372,233) |
| Principal paid on note payable                            | (322,080)    |
| Proceeds from the sale of capital assets                  | 70,191       |
| Net cash used in capital and related financing activities | (3,704,800)  |

**Cash flows from investing activities:**

|                                             |              |
|---------------------------------------------|--------------|
| Interest received                           | 1,766,654    |
| Interest paid                               | (1,363,849)  |
| Purchase and construction of capital assets | (16,878,639) |
| Loss on sale of investments                 | (1,596,274)  |
| Net cash used in investing activities       | (18,072,108) |

|                             |                   |
|-----------------------------|-------------------|
| <b>Net increase in cash</b> | <b>12,614,148</b> |
|-----------------------------|-------------------|

|                                |                   |
|--------------------------------|-------------------|
| <b>Cash, beginning of year</b> | <b>45,152,575</b> |
|--------------------------------|-------------------|

|                          |                      |
|--------------------------|----------------------|
| <b>Cash, end of year</b> | <b>\$ 57,766,723</b> |
|--------------------------|----------------------|

Cash for the purposes of this statement consists of the following

|                      |               |
|----------------------|---------------|
| <i>September 30,</i> | <b>2024</b>   |
| Cash                 | \$ 38,454,106 |
| Restricted cash      | 19,312,617    |
| Total cash           | \$ 57,766,723 |

|-----------------------------------------------------|-----------|

*The accompanying notes are an integral part of these financial statements.*

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Reporting Entity***

Space Florida is an independent special district, a body politic and corporate, and a component unit of the State of Florida, which was created pursuant to the Space Florida Act, Sections 331.301-331.371, Florida Statutes, as amended. Space Florida's purpose is to foster the growth and development of a sustainable and world-leading aerospace industry in the State of Florida. Space Florida accomplishes its purpose by promoting aerospace business development, facilitating business financing, spaceport operations, research and development, workforce development, and innovative education programs. Space Florida is not considered an "agency" of the State for budgeting, as defined in Florida Statutes 216.011 and 287.012.

Space Florida is governed by a 12 member independent board of directors that consists of the Governor who shall serve ex officio, or who may appoint a designee to serve as the chair and a voting member of the board, the Secretary of Transportation, five members appointed by the Governor, one member appointed by the President of the Senate, one member appointed by the Speaker of the House of Representatives, and a representative of each of the following entities, who shall serve as an ex officio, nonvoting member of the board, appointed by the Governor: the Jacksonville Aviation Authority, the Titusville-Cocoa Airport Authority and an employee or official of a port district or port authority as defined in s. 315.3081(1), Florida Statutes.

Space Florida has the authority to purchase or construct facilities, to set rates, fees and charges for the use of facilities and to undertake joint financing with municipalities or private sector entities for projects. Space Florida also has the power to issue bonds and other instruments of indebtedness. The full faith and credit of the State of Florida does not secure any bonds issued by Space Florida.

***Measurement Focus, Basis of Accounting and Financial Statement Presentation***

Space Florida's financial statements are reported using the economic resources measurement focus, which is concerned with the inflow and outflow of resources that affect an entity. The Statement of Net Position reflects those resources available to meet current obligations and to be used in the delivery of goods and services in subsequent periods. The Statement of Revenues, Expenses and Changes in Net Position summarize those resources received and those consumed during the current period. The statement distinguishes between operating and non-operating revenues and expenses. Operating revenues generally result from leases, administrative fees and operating grants. Operating expenses include the costs for space business development activities, educational research development and workforce activities, operations, administrative expenses and depreciation. All revenues and expenses not meeting the definition of operating are reported as non-operating revenues and expenses.

Space Florida accounts for all of its activities within one enterprise fund.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Use of Estimates***

The process of preparing financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Upon settlement, actual results may differ from those estimates.

***Cash***

Consists of cash on hand and demand deposits that are restricted and unrestricted.

***Investments***

Investments are valued at cost, as permitted by Governmental Accounting Standards Board Statement (GASBS) 62 *Codification of Account and Financial Report Guidance*, as the investments are not held for the primary purpose of income or profit and therefore do not meet the requirements as defined by GASBS No 72 *Fair Value Measurement* to be measured at fair value. Space Florida is allowed to invest in common stock and warrants under Florida Statute 331.305. Management has reviewed the investments and recognized an impairment of \$2,830,849 (see custodial credit risk in Note 2) as of September 30, 2024.

***Accounts Receivable***

The receivables are funds due to Space Florida from customers. Space Florida charges interest based on contract terms. An allowance of \$32,723 was recorded at September 30, 2024 based on management's estimate of the collectability of outstanding accounts receivable balances.

***Leases Receivable***

Space Florida has multiple commercial lease agreements for buildings and land. Space Florida's commercial lease receivables are measured at the present value of lease payments expected to be received during the lease terms at the treasury bill rate of a period similar to the remaining lease periods at the date of adoption. Subsequently, the lease receivables are reduced by the principal portion of lease payments received over the life of the lease terms. Most leases include increases of a minimum percentage or escalate with CPI or fair value adjustments.

***Loans Receivable***

Loans receivable consist of loans due from several companies (see Note 4). Management reviews each loan and based on timeliness of payments estimates an allowance.

***Other Assets***

Other assets consist of deposits and prepaid expenses. Prepaid expenses reflect costs applicable to future accounting periods and is recorded as a prepaid items in the financial statements.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Restricted Assets***

Restricted assets consist primarily of cash received and unexpended in connection with specific private-funded projects.

***Capital Assets***

Capital assets are defined as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of one year. Capital assets are recorded at cost when purchased or at acquisition value at the date of donation. Additions, improvements and expenditures for repairs and maintenance that extend the lives of assets are capitalized. Other expenditures for repairs and maintenance are charged to expense as incurred. The carrying amount and accumulated depreciation of assets that are sold or retired are removed from the accounts in the year of disposal and any resulting gain or loss is included in results of operations.

Depreciation is provided using the straight-line method over the useful lives of the various classes of depreciable assets. The estimated useful lives of the building improvements is 27 years, and furniture, fixtures, vehicles and equipment range from 2 to 27 years.

***Deferred Inflows of Resources***

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Space Florida has one (1) item that qualify for reporting as a deferred inflows of resources. The deferred inflows related to leases are associated with amounts owed to Space Florida, as lessor, by entities leasing Space Florida's capital assets.

***Accrued Compensated Absences***

Space Florida's reporting of accrued compensated absences has been recorded in accordance with GASB Codification C60: *Compensated Absences*. A liability is accrued for an employee's right to receive compensation for future absences when certain conditions are met.

***Unearned Revenues***

Unearned revenues include amounts invoiced or collected before the revenue recognition criteria are met and includes advanced payments received from grantor agencies that are unearned and recognized over the periods to which the payments relate.

***Deposits***

Deposits consist of amounts held for tenants of leased facilities.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Custodial Liability***

The custodial liability consists of funds held for an unrelated company.

***Customer Advances***

Customer advances consist of assets provided to Space Florida before the related expenses are incurred.

***Long-term Obligations***

In the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the proprietary fund statement of net position. In accordance with GASB Codification I30: *Interest Costs – Imputation*, debt issuance costs are expensed in the periods incurred except for prepaid insurance costs.

***Net Position***

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of debt, or other liabilities that are attributable to the acquisition, construction or improvement of those assets.

Net position is restricted when constraints placed on funds are either externally imposed or are imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net position. At September 30, 2024, restricted net position consists primarily of cash received and unexpended in connection with specific State-funded projects and unearned revenue. When both restricted and unrestricted resources are available for use, generally it is Space Florida's policy to use restricted resources first, then unrestricted resources as needed.

***Recently Issued and Implemented Accounting Pronouncements***

GASB Statement No. 100, Accounting Changes and Error Corrections. This Statement establishes accounting and financial reporting requirements for (a) accounting changes and (b) the correction of an error in previously issued financial statements (error correction). This Statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes.

This Statement prescribes the accounting and financial reporting for (1) each type of accounting change and (2) error corrections. This Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

In addition, information about the quantitative effects on beginning balances of each accounting change and error correction should be disclosed by reporting unit in a tabular format to reconcile beginning balances as previously reported to beginning balances as restated.

Furthermore, this Statement addresses how information that is affected by a change in accounting principle or error correction should be presented in required supplementary information (RSI) and supplementary information (SI). There were no significant impacts of implementing this Statement.

The Governmental Accounting Standards Board has issued statements that will become effective in future years. These statements are as follows:

GASB Statement No. 101, *Compensated Absences*, The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter.

Space Florida is evaluating the requirements of the above statements and the impact on reporting.

***Subsequent Events***

Management has evaluated subsequent events through the date that the financial statements were available to be issued, May 6, 2025, and determined there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

**Note 2: CASH AND INVESTMENTS**

At September 30, 2024, the carrying amount of Space Florida's deposits was \$57,766,723 and the bank balances were \$58,679,807. These deposits consist of demand accounts that are covered by the Federal Depositary Insurance Corporation (FDIC) up to \$250,000. Monies invested in amounts greater than FDIC limits are secured by collateral held by Space Florida's agent, pursuant to the Florida Security for Public Deposits Act (the "Act"). The Act requires that Space Florida maintain deposits only in "qualified public depositories." All qualified public depositories must deposit with the State Treasurer eligible collateral in such amounts as required by the Act. Should a default or insolvency occur, the State Treasurer would implement procedures for payment of losses according to the validated claims of Space Florida. Therefore, Space Florida's deposits are considered to be fully insured.

Florida Statute 331.309 authorizes Space Florida to select as a depository any qualified public depository as defined in Florida Statute 280.02. Space Florida may also deposit funds with the State Treasury.

**Space Florida**  
**Notes to the Financial Statements**

**Note 2: CASH AND INVESTMENTS (Continued)**

Cash consists of the following:

| <i>September 30,</i> | <b>2024</b>          |
|----------------------|----------------------|
| Demand deposits      | <b>\$ 57,766,723</b> |
| Classified as:       |                      |
| Cash                 | <b>\$ 38,454,106</b> |
| Restricted cash      | <b>19,312,617</b>    |
| Total                | <b>\$ 57,766,723</b> |

Credit risk

Florida Statute 331.348 authorizes Space Florida to invest in funds backed by the federal and local governments, or any investment authorized in Florida Statute 17.57.

Interest rate risk

Space Florida's investment policy and Florida Statutes do not limit the maturities of investments to reduce the interest rate risk.

Foreign currency risk

Space Florida is not exposed to foreign currency risk. All of the holdings of Space Florida are denominated in US Dollars.

Concentration of credit risk

Space Florida's investment policy and Florida Statute 331.348 do not limit the concentration of types of investments.

Investments

At September 30, 2024, Space Florida had the following cost method investments, net of impairment:

| <i>September 30,</i>                                      | <b>2024</b>         |
|-----------------------------------------------------------|---------------------|
| Investment 1 - 513,838 shares of class A common stock *   | <b>\$ 1,966,800</b> |
| Investment 2 - 7,000 shares of series A-2 preferred stock | <b>63,000</b>       |
| Investment 3 - 630,000 shares of class A common stock *   | <b>2,520,000</b>    |
| Investment 4 - 9,183,020 shares of preferred stock        | <b>-</b>            |
| Total                                                     | <b>\$ 4,549,800</b> |

\* greater than 5% of total investments

Investment 3 common stock is net of an impairment of \$1,380,000 at September 30, 2024.  
Investment 4 preferred stock is net of impairment of \$1,450,849 at September 30, 2024.

**Note 2: CASH AND INVESTMENTS (Continued)**

Custodial credit risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, Space Florida will not be able to recover the value of the investments that are in the possession of an outside party. Space Florida does not have a formal policy for custodial credit risk. Space Florida's investments of \$4,549,800 as of September 30, 2024 are for securities uninsured, unregistered and are held by the individual companies that have issued the stock. Space Florida incurred an impairment loss of \$2,376,274 during the year ended September 30, 2024.

**Note 3: DUE FROM OTHER GOVERNMENTS**

Due from other governments is comprised of \$19,066,628 of State appropriations and grants for capital improvements at September 30, 2024.

**Note 4: LOANS RECEIVABLE**

Space Florida entered into several loan agreements with a company (Company 1) totaling \$1,036,925 through June 30, 2011 charging 1% interest per annum. During February 2012, the previous loans were refinanced and an additional \$399,076 was loaned to the Company. The loan is secured by collateral in an engine. Interest only payments are due monthly beginning March 2013 and a balloon payment was due in 2022. The Company has requested an extension of their loan beyond the maturity date. During the year ended September 30, 2024, interest payments were made in accordance with the terms of the agreement. Space Florida's management has estimated a portion of the note receivable will most likely not be collected and has recorded an allowance of \$287,200 at September 30, 2024.

During January 2018, Space Florida entered into an unsecured convertible promissory note agreement with a company (Company 4). The terms of the note include an original principal balance of \$1,000,000, interest accrues at 8% per annum, and does not require regular payments. The entire outstanding principal and accrued interest balance for this note were converted into equity during the year ended September 30, 2024.

During October 2018, Space Florida entered into a promissory note agreement with a company (Company 5). The terms of the note include an original principal balance of \$400,000, interest accrues at 2% per annum, and requires 20 quarterly interest only payments with a balloon payment of the remaining balance upon maturity during April 2025. The note is secured by certain personal property of Company 5. Management has estimated that the note receivable will most likely not be collected and has recorded an allowance of \$400,000 as of September 30, 2024.

## Space Florida Notes to the Financial Statements

### Note 6: LONG-TERM DEBT

#### Notes Payable

During October 2013, Space Florida entered into a loan agreement with a bank in the amount of \$17,500,000. The note was to mature on January 30, 2015 and has subsequently been amended multiple times. The various amendments modified the maturity date, repayment terms, and interest rates. The current terms of the note were set forth in an agreement with the bank on June 15, 2020 which defined a maturity date of July 1, 2027, interest accruing at 3.021% per annum and quarterly payments of principal and interest beginning on October 1, 2020. The principal and interest balance of the loan was paid in its entirety during the year ended September 30, 2024.

Long-term liability activity for the year ended September 30, 2024 is as follows:

|                               | Balance<br>September 30,<br>2023 | Additions  | Reductions     | Balance<br>September 30,<br>2024 | Due Within<br>One Year |

| Total                         | \$ 50,523,363                    | \$ 548,268 | \$ (1,267,045) | \$ 49,804,586                    | \$ 737,014             |

### Note 7: CONDUIT DEBT

As defined by GASBC Section C65, conduit debt obligations are certain limited obligation debt instruments issued by a state or local governmental entity for the express purpose of providing capital financing for a specific third party that is not a part of the issuer's financial reporting entity. Although the conduit debt obligations bear the name of the governmental entity, the entity has no obligation to repay the conduit debt beyond the resources provided by a lease or loan to the third-party. Space Florida has concluded that conduit debt does not create a liability for the governmental entity and, therefore, is not reflected on the entity's basic financial statements.

Space Florida has participated in the issuance of conduit debt projects that are not reflected on the statement of net position of its basic financial statements. The conduit debt transactions discussed below are limited obligation debts of Space Florida and are payable solely from the pledged revenues described in the respective debt agreements. Neither the faith nor credit, nor the taxing power of Space Florida, the State of Florida nor any subdivision thereof is pledged for the payment of the debts.

During December 2014, Space Florida entered into a multi-phase agreement with a company to provide with financing related to the sale and leaseback of personal and real property for up to \$250,000,000. As of September 30, 2024, the outstanding balance on Space Florida assisted financing was \$308,044,835. The debt will be repaid with proceeds from the lease of the personal property. The loan is collateralized by the lease.

**Note 7: CONDUIT DEBT (Continued)**

During September 2020, Space Florida entered into an agreement with a company with operations in Orlando to provide financing relating to the leasing of personal property for up to \$75,000,000. The remaining payments under the lease agreement were \$87,586,516 at September 30, 2024. The debt will be repaid by fees charges by the lessee for usage of the equipment and is secured by the personal property.

During March 2022, Space Florida entered into agreements with a company (the “Guarantor”) to provide conduit debt for up to \$70,000,000 related to the construction and lease back of property to the Guarantor. In October 2023, Space Florida entered into agreements with the Guarantor to assist in conduit debt financing related to the sale and lease back of personal property for an additional amount up to \$12,400,000. The conduit debt will be repaid by assignment to the debt holder of the fees charges to the Guarantor for usage of the equipment and is secured by the personal property of the Guarantor. The proceeds of the conduit debt are to be used for the construction of the property and the construction project is being managed by Space Florida. As part of the agreement, at September 30, 2024, Space Florida holds \$583,995 of cash from the conduit debt for the payment of construction costs.

During June 2023, Space Florida entered into a multi-phase agreement with a company to provide conduit debt financing related to the sale and leaseback of personal and real property for up to \$201,400,000. As of September 30, 2024, the outstanding balance on Space Florida assisted financing was \$201,400,000. The conduit debt will be repaid with proceeds from the lease of the personal property. The loan is collateralized by the lease.

During May 2023, Space Florida entered into an agreement with a company with operations in Orlando to provide conduit debt financing relating to the leasing of personal property for up to \$75,000,000. The remaining payments under the lease agreement were \$59,740,704 at September 30, 2024. The conduit debt will be repaid by fees charges by the lessee for usage of the equipment and is secured by the personal property.

**Note 8: LEASES**

Space Florida has entered into various lease transactions for the purpose of economic development at various locations throughout the State of Florida. Space Florida enters into these lease transactions as lessee with the intent to sublease the right of use asset to another unrelated entity. A general description of Space Florida’s leasing arrangements is as follows:

***Engineering & Technology Center***

Space Florida is the lessee of the Engineering & Technology Center (EETC) under an agreement entered into on November 7, 2012, with the Melbourne Airport Authority for the right and intent to sublease facilities. The term of the lease is for 360 months with an option to extend this lease for up to 4 additional terms of 5 years. The lease began in August 2014. The lease contains rent escalations based upon a 5 year trailing Consumer Price Index (CPI) calculation. Future monthly rent payments are \$17,622 and are estimated using the 5 year trailing CPI as of the date of adoption of GASBS No. 87, *Leases*. At September 30, 2024 the lease liability is \$1,889,350.

**Note 8: LEASES (Continued)**

***Engineering & Technology Center (Continued)***

Space Florida is the lessor and subleases the EETC to an unrelated company under an agreement entered into on September 18, 2014 for period of 20 years. The tenant is responsible for maintenance, operations, and improvements of the facilities. The lease contains rent escalations based upon a 5 year trailing Consumer Price Index (CPI) calculation. Future rent receipts range from \$15,519 to \$17,636 and are estimated using the 5 year trailing CPI as of the date of adoption of GASBS No. 87, *Leases*. The lease receivable at September 30, 2024 is \$1,889,350 and the deferred inflow is \$1,827,984.

***Commercial Crew and Cargo Processing Facility***

Space Florida is the lessor and subleases the Commercial Crew and Cargo Processing Facility “C3PF” f/k/a/ Orbiter Processing Facility 3 “OPF-3,” Space Shuttle Main Engine Processing Facility, K6-0696 building, and the processing Control Center under an agreement entered into on April 1, 2015. The lease terminates in December 31, 2021 with an option to extend for up to two additional terms of three years, but shall not extend beyond the user permit term expiration date of June 1, 2027. The lease contains rent escalations based upon the fair market value of the leased property as determined by NASA or an independent appraisal. The lease requires quarterly payments and future rent receipts are \$33,532 per quarter. At September 30, 2024, the lease receivable is \$33,532 and the deferred inflow is \$33,287.

***Exploration Park***

***Exploration Park Phase 1***

Space Florida is the lessee of land from NASA’s John F. Kennedy Space Center for the development of a mixed-use, multi-tenant technology and commerce park referred to as “Exploration Park” under an enhanced use agreement entered into on January 1, 2009. The initial lease term is 30 years with an optional 30 year renewal period. The park is intended to host diverse aerospace-related activities for commercial, civil and military tenants. No cash lease payments are required under the lease agreement until January 1, 2032, however Space Florida recognizes and accrues the related interest expense. Once lease payments begin, the rent expense shall escalate on the anniversary using the consumer price index or, if greater, shall be 5% of gross revenues derived from subleases in Phase 1. Future rent payments, after cash payments begin, range from \$56,102 to \$1,678,359 per year. The lease liability at September 30, 2024 is \$21,563,649.

**Note 8: LEASES (Continued)**

***Exploration Park (Continued)***

**Space Life Sciences Lab at Exploration Park**

Space Florida is the lessee of land from NASA's John F. Kennedy Space Center under a use agreement entered into on February 8, 2001 with an initial term of 30 years and an optional 30 year renewal period. On the leased land, Space Florida constructed and owns the Space Life Sciences Lab (SLSL) at Exploration Park. Space Florida leases space within the SLSL to various tenants, and the use agreement with NASA requires Space Florida to make regular lease payments if NASA is not the primary tenant. During the year ended September 30, 2024, NASA was not the primary tenant and Space Florida does not anticipate NASA to become the primary tenant and has included these lease payment obligations in the consolidated lease disclosures. The lease requires quarterly payments of \$77,750. The lease liability at September 30, 2024 is \$2,152,535.

Space Florida is the lessor and subleases office and laboratory space within the SLSL to a university under an agreement entered into on July 22, 2024. The initial lease term is 3 years with additional negotiable renewal periods. The lease requires regular monthly payments ranging from \$8,333 to \$16,667. At September 30, 2024 the lease receivable is \$390,453 and the deferred inflow is \$385,587

Space Florida leases other office and laboratory space within the SLSL to various tenants under short term or cancelable lease agreements.

**Exploration Park Phase 1 Building D-F**

Space Florida is the lessor of land and a building to a company under an agreement entered into on April 25, 2017. The terms of the agreement include a contribution of the building constructed by the tenant to Space Florida in exchange for the right to lease the building back and a reduction of future land lease payments. The lease began upon occupancy of the building by the tenant on April 1, 2019 with a term of 20 years and renewal options for up to an additional 15 years via three 5 year lease renewal periods. The agreement also requires payment of quarterly common area maintenance fees and a prepayment for quarterly projected utility usage which are excluded from future rent receivables. The lease requires monthly payments of \$43,537. At September 30, 2024 the lease receivable is \$6,586,652 and the deferred inflow is \$6,403,204.

**Exploration Park Phase 2 Site A**

Space Florida is the lessee of land from NASA's John F. Kennedy Space Center under a use agreement entered into on December 31, 2015. The lease began upon the completion of certain improvements by Space Florida on September 30, 2018 and terminates September 2075. There are no cash lease payments required until October 1, 2042; however, Space Florida recognizes and accrues the related interest expense. Once cash lease payments begin the rental rate shall escalate on the anniversary using the consumer price index or, if greater, shall be 5% of gross revenues derived from subleases in Phase 2. Future rent payments, after cash payments begin, range from \$306,194 to \$412,894 per year. The lease liability at September 30, 2024 is \$6,865,161.

**Note 8: LEASES (Continued)**

***Exploration Park (Continued)***

***Exploration Park Phase 2 Site A (Continued)***

Space Florida is the lessor of land within Exploration Park Phase 2 Site A to a company under an agreement entered into on December 28, 2019. The lease terminates September 2078. The terms of the agreement include a contribution from the tenant as more fully described below in exchange for leasing the land back to the tenant. The contribution will offset all future lease payments and no cash payments are due. Lease payments are recognized monthly with the remaining balance recognized as a deferred inflow. At September 30, 2024, the lease receivable is \$6,865,161 and the deferred inflow is \$6,503,387.

Space Florida is the lessor of buildings and ancillary support structures within Exploration Park Phase 2 Site A to a company under an agreement entered into on December 28, 2019. The terms of the agreement include a contribution of the buildings and ancillary support structures constructed by the tenant to Space Florida in exchange for leasing the building back to the tenant. The contribution will offset all future lease payments. Lease payments are recognized monthly with the remaining balance recognized as a deferred inflow. The lease term is 50 years expiring December 2070. At September 30, 2024 the deferred inflow is \$44,899,383.

***Exploration Park Phase 2 Site B***

Space Florida is the lessee of buildings and ancillary support structures within Exploration Park Phase 2 Site B to a company under an agreement entered into on February 28, 2020. The terms of the agreement also include an embedded lease-leaseback through the assignment of a lease, excluding future lease payments, from the tenant to Space Florida in exchange for leasing it back to the tenant. Additionally the terms of the lease include a contribution of buildings and ancillary support structures constructed by the tenant to Space Florida in exchange for leasing the building and ancillary support structures back to the tenant. The contribution will offset all future lease payments and no cash payments are due. Lease payments are recognized monthly with the remaining balance recognized as a deferred inflow. The lease term is 50 years expiring November 2068. At September 30, 2024 the deferred inflow is \$113,440,840.

***Exploration Park Phase 3***

Space Florida is the lessee of land from NASA's John F. Kennedy Space Center under a use agreement entered into on January 7, 2023 with an initial term of 45 years and an optional 10 year renewal period. Space Florida leases the land to various tenants, and the use agreement with NASA requires Space Florida to make regular lease payments if NASA is not the primary tenant. During the year ended September 30, 2024, NASA was not the primary tenant and Space Florida does not anticipate NASA to become the primary tenant and has included these lease payment obligations in the consolidated lease disclosures. The lease requires yearly payments ranging from \$443,928 to \$1,871,184. The lease liability at September 30, 2024 is \$16,850,455.

**Note 8: LEASES (Continued)**

***Exploration Park (Continued)***

**Exploration Park Phase 3 (Continued)**

Space Florida is the lessor of land within Exploration Park Phase 3 to a company under an agreement entered into on January 7, 2023. The lease terminates December 2068 with one option to extend for an additional 10 years. The terms of the agreement include a contribution from the tenant as more fully described below in exchange for leasing the land back to the tenant. The contribution will offset all future lease payments and no cash payments are due. Lease payments are recognized monthly with the remaining balance recognized as a deferred inflow. At September 30, 2024, the lease receivable is \$16,850,455 and the deferred inflow is \$16,703,347.

***Shuttle Landing Facility***

Space Florida is the lessee of vehicles for refueling of equipment at the Shuttle Landing Facility (SLF) under an agreement entered into on August 18, 2021. The initial lease term is 1 year with 3 one year renewal periods which are included in the lease liability. The terms of the agreement require cash payments of \$2,200 are due monthly. At September 30, 2024, the lease liability is \$23,121.

***Launch Complex 20***

Space Florida is the lessor of land, buildings, and infrastructure collectively referred to as Launch Complex 20 (SLC-20) to a company under an agreement entered into on October 11, 2021. The initial lease term is through March 31, 2026 with 3, consecutive 5 year renewal periods. The terms of the agreement require monthly payments of \$41,667. At September 30, 2024, the lease receivable is \$744,453 and the deferred inflow is \$520,482.

***Other short-term agreements***

Space Florida has additional agreements with NASA and the Air Force which are cancelable or contain terms of less than 12 months. These short-term agreements consist of short-term leases, access licenses, and rights to use various assets including Launch Complex 20, Launch Complex 46, the Shuttle Landing Facility, and other smaller facilities or parcels of land. These agreements are expensed as incurred.

***Accrued interest***

As noted above, Space Florida is the lessee for certain leases for which there are no current cash lease payments required. During the time the lease payments are not required, Space Florida recognizes and accrues the interest expense related to these leases. At September 30, 2024, accrued interest is \$2,492,191.

**Space Florida**  
**Notes to the Financial Statements**

**Note 8: LEASES (Continued)**

***Accrued interest (Continued)***

The following is a schedule of future minimum lease payments from lease agreements at September 30:

| <i>For the years ending September 30,</i> |               |               | Total Future<br>Minimum Lease<br>Payments |            |
|-------------------------------------------|---------------|---------------|-------------------------------------------|------------|
|                                           | Principal     | Interest      |                                           |            |
| 2025                                      | \$ 490,570    | \$ 55,995     | \$                                        | 546,565    |
| 2026                                      | 474,069       | 48,774        |                                           | 522,843    |
| 2027                                      | 480,112       | 41,722        |                                           | 521,834    |

| 2060 - 2064                               | 7,525,409     | 7,716,277     |                                           | 15,241,686 |
| 2065 - 2069                               | 13,381,282    | 3,659,738     |                                           | 17,041,020 |
| 2070 - 2074                               | 7,907,642     | 2,136,260     |                                           | 10,043,902 |
| 2075 - 2079                               | 8,310,083     | 535,904       |                                           | 8,845,987  |
| Total                                     | \$ 49,351,581 | \$ 47,135,230 | \$                                        | 96,486,811 |

**Note 9: RETIREMENT PLAN**

Effective September 1, 2006, Space Florida established a Simplified Employee Pension Plan (the "Plan"). The Plan eliminates the taxation required for the social security element of the Federal Insurance Contributions Act (FICA) for all participants and for Space Florida.

All employees of Space Florida are eligible to participate in the Plan immediately. Participants vest at 100% upon entering the Plan and retirement eligibility is set at age 65.

The Plan is non-contributory for employees and, therefore, all contributions are the obligation of Space Florida. Contributions to the Plan for the year ended September 30, 2024 was \$1,054,817 and represented 15% of total eligible employee gross compensation for each period.

**Note 10: COMMITMENTS AND CONTINGENCIES**

Commitments

Contract commitments at September 30, 2024 were \$71,959,914 and related to the design and construction for various launch sites and capital assets and certain other consulting agreements.

Economic Dependency

Space Florida received approximately 60% of its total revenues from State legislative appropriations and grants during the year ended September 30, 2024.

State Appropriated Funds & Federal Contracts

Amounts received from State and Federal agencies are subject to audit and adjustment at the discretion of these entities. If expenditures are disallowed as a result of these audits, the claims for reimbursement to the agency would become a liability of Space Florida.

**Note 11: RISK MANAGEMENT**

Space Florida purchases commercial insurance for worker's compensation, health and property insurance for their major capital assets. Therefore all risks of loss are fully insured up to policy maximums.

**Note 12: RELATED PARTY TRANSACTIONS**

Titusville-Cocoa Airport Authority (TCAA) is a related organization of Space Florida through TCAA's representation on the board as an ex officio, nonvoting member. TCAA has a sub recipient agreement with Space Florida as part of a Spaceport Improvement Program grant from the Florida Department of Transportation. During the fiscal year ended September 30, 2024, TCAA received \$43,895 from this sub recipient agreement.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Board of Directors  
Space Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Space Florida, as of and for the year ended September 30, 2024 and the related notes to the financial statements, which collectively comprise Space Florida's basic financial statements, and have issued our report thereon dated May 6, 2025

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Space Florida's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Space Florida's internal control. Accordingly, we do not express an opinion on the effectiveness of Space Florida's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Space Florida's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY CHAPTER 10.550, RULES OF THE FLORIDA AUDITOR GENERAL**

The Board of Directors  
Space Florida

### **Report on Compliance for Each Major State Project**

#### ***Opinion on Each Major State Project***

We have audited Space Florida's compliance with the types of compliance requirements described in *Chapter 10.550, Rules of the Auditor General* that could have a direct and material effect on each of Space Florida's major state projects for the year ended September 30, 2024. Space Florida's major state projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Space Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state projects for the year ended September 30, 2024.

#### ***Basis for Opinion on Each Major State Project***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Chapter 10.550, *Rules of the Auditor General*. Our responsibilities under those standards and Chapter 10.550 are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Space Florida and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state project. Our audit does not provide a legal determination of Space Florida's compliance with the compliance requirements referred to above.

### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Space Florida's state projects.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Space Florida's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Chapter 10.550, *Rules of the Auditor General*, will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Space Florida's compliance with the requirements of each major state project as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and Chapter 10.550, *Rules of the Auditor General*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Space Florida's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Space Florida's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of Space Florida's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state project will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not

identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Chapter 10.550, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

**Note A - Significant Accounting Policies:**

The Schedule of Expenditures of State Assistance is a summary of Space Florida's state assistance programs presented on the accrual basis of accounting in accordance with generally accepted accounting principles.

Grant monies received and disbursed by Space Florida are for specific purposes and are subject to review by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon experience, Space Florida does not believe that such disallowance, if any, would have a material effect on the financial position of Space Florida.

## INDEPENDENT AUDITOR’S MANAGEMENT LETTER

The Board of Directors  
Space Florida

### Report on the Financial Statements

We have audited the financial statements of Space Florida as of and for the fiscal year ended September 30, 2024, and have issued our report thereon dated May 6, 2025.

### Auditor’s Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and Chapter 10.550, Rules of the Auditor General.

### Other Reporting Requirements

We have issued our Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor’s Report on Compliance for Each Major State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant’s Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated May 6, 2025, should be considered in conjunction with this management letter.

### Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. The status of each finding and recommendation made in the preceding annual financial audit report, is noted below:

| Prior Year Management Letter Comments: | Status    | Original Year |
|----------------------------------------|-----------|---------------|
| 2023-001 SESFA                         | Corrected | 2023          |

### Official Title and Legal Authority

Section 10.554(1)(i)4, Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authority of Space Florida is disclosed in the footnotes. There are no component units.

## Financial Condition and Management

Section 10.554(1)(i)5.a., and 10.556(7) Rules of the Auditor General, requires us to apply appropriate procedures and communicate the results of our determination as to whether or not Space Florida has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that Space Florida did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for Space Florida. It is management's responsibility to monitor Space Florida's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.5534(1)(i)2, Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

## Specific Information (Unaudited)

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6-8, Rules of the Auditor General, Space Florida reported the information below. This information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, Space Florida reported:

- |                                                                                                                                                                                                                                              |                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| a. The total number of Space Florida employees compensated in the last pay period of the Space Florida's fiscal year as:                                                                                                                     | <b>54</b>           |
| b. The total number of independent contractors to whom nonemployee compensation was paid in the last month of Space Florida's fiscal year as:                                                                                                | <b>0</b>            |
| c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency.                                                                                                                                   | <b>\$ 7,126,669</b> |
| d. All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency.                                                                                                         | <b>\$ 119,219</b>   |
| e. Each construction project with a total cost of at least \$65,000 approved by Space Florida that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such projects as: | <b>None</b>         |

f. A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if Space Florida amends a final adopted budget under Section 189.016(6), Florida Statutes.

Space Florida operates as an enterprise fund and does not adopt a legal budget, therefore no reporting is required by Section 189.016(6), Florida Statutes.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)8, Rules of the Auditor General, Space Florida reported:

a. The millage rate or rates imposed by Space Florida. **None**

b. The total amount of ad valorem taxes collected by or on behalf of Space Florida. **None**

c. The total amount of outstanding bonds issued by Space Florida and the terms of such bonds as: **None**

Information required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)9, Rules of the Auditor General: Space Florida has not imposed any special assessments and therefore no reporting is required by Section 218.39(3)(c), Florida Statutes.

### **Property Assessed Clean Energy (PACE) Programs**

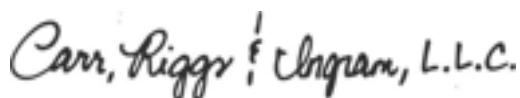

As required by Section 10.554(1)(i)6.a., Rules of the Auditor General, Space Florida did not operate a PACE program pursuant to Section 163.081 or Section 163.082, Florida Statutes, within Space Florida's geographical boundaries during the fiscal year under audit.

### **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

## INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH LOCAL GOVERNMENT INVESTMENT POLICIES

The Board of Directors  
Space Florida

We have examined Space Florida's compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2024. Management of Space Florida is responsible for Space Florida's compliance with the specified requirements. Our responsibility is to express an opinion on Space Florida's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether Space Florida complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether Space Florida complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on Space Florida's compliance with specified requirements.

In our opinion, Space Florida complied, in all material respects, with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2024, in all material respects.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
